5 to 6	*Dasavandam Inam, Bellary District.* Orders relative to the manner of entering in the accounts the revenue derived from the Dasavandam inam, Kodikonda village, Hindupur Taluk, Bellary District.	No. 333—12, dated 16th April 1879.	...	...	4
7 to 8	*Kans in the Ságar Taluk.* Sanctioning for 5 years from 5th April 1879, the rates proposed for the occupied kans in the Ságar Taluk.	No. 338—13, dated 15th April 1879.	...	...	5 to 6
9 to 10	*Revision of assessment, Haranhalli Taluk.* Orders relative to the revision of assessment of the Haranhalli Taluk in the Hassan District.	No. 760—6, dated 29th April 1879.	...	...	7 to 33
11 to 12	*Remuneration of village servants, Channagiri Taluk.* Sanctioning the proposed permanent remuneration of the village servants of the Channagiri Taluk.	No. 773—7, dated 29th April 1879.	...	...	34 to 36
13 to 14	*Calculating excess rate of Inams, Shikarpur Taluk.* Orders relative to the manner of calculating the rate of excess to be allowed to inams in the Shikarpur Taluk.	No. 958—35, dated 30th April 1879.	...	No. 8317—190, dated 11th Jan. 1879.	37 to 40
15 to 16	*Inams in Sorab, Ságar, Channagiri and Budihal Taluks.* Orders relative to inams in the Sorab and Ságar Maluad Taluks, and Channagiri and Budihal Maidan Taluks.	No. 937—34, dated 30th April 1879.	...	No. 8650—196, dated 8th Jan. 1878.	41 to

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 5th April 1879.

From the Commissioner, Nundydroog Division, To the Secretary to the Chief Commissioner of Mysore, General Department, Genl. No. 325, dated Bangalore, 21st October 1878.

Adverting to your docket No. 4695—103 of the 18th September 1878, I have the honor to return the map of the Nelamangala Taluk with the proposed extension of the Nijagal and Doddabele Hoblis carefully defined in red, and to state that I agree with the proposal made by Captain Mackenzie on the subject.

2. I beg to request that the map may be kindly retransmitted when no longer required.

Proceedings of the Chief Commissioner of Mysore, General Department, No. 5843—Genl. 59, dated 29th October 1878.

Order thereon.—The Commissioner is requested to submit a list of the villages to be transferred from Tyamagondala to the Doddabele Hobli and from Doddabele to Nijagal Hobli with a proposition statement shewing the financial effect of the measure proposed.

2. No changes can however be made till after the current year's jamabandi settlement, and when that has been concluded final orders will be passed.

From the Offg. Commissioner, Nundydroog Division, To the Secretary to the Chief Commissioner of Mysore, General Department, Genl. No 525, dated Bangalore, 13th March 1879.

As called for in Proceedings No. 5843—Genl. 59 of the 29th October last, I have the honor to forward herewith a list shewing the names of the villages proposed to be transferred from the Tyamagondala to the Doddabele and Nijagal Hoblis, and also the villages to be transferred from the Doddabele to the Nijagal Hobli of the Nelamangala Taluk. A statement of the financial effect of the measure proposed is also enclosed.

2. The revision might, if approved, be ordered to take effect from 1st May next.

3. The taluk map is herewith returned.

Statement shewing the Names of Villages proposed to be transferred from Tyamagondala to Doddabele, and from Doddabele to Nijagal Hobli, Nelamangala Taluk.

READ—

Letter No. 231, dated 11th ultimo, submitting for sanction proposals for the absorption of certain villages of the Banavar Taluk.

NOTIFICATION.

No. 331. *The 28th March* 1879.

It is hereby notified for public information that the following villages of the Banavar Taluk are abolished as separate revenue villages, that is to say all those specified in column 5 of the statement hereunder appended, and that the lands included within the limits of the same, and the revenue derived from the said villages are incorporated in the several villages enumerated in column 3 of the said statement, each village in column 5 being absorbed in that village entered in column 3 opposite which it is entered in the said statement.

Statement shewing the present and proposed villages of the Banavar Taluk of the Kadur District.

No. 171—Rev. 2, dated Bangalore, 8th April 1879.

Order thereon.—Ordered that copy of the above Notification be forwarded to the Superintendent of Revenue Survey, with reference to his letter No. 190, dated 25th February 1879, to the address of the Survey and Settlement Commissioner.

2. No time should be lost in making the necessary corrections in the village maps and settlement papers and in communicating the same to the Deputy Commissioner of the Kadur District, in order that the village accounts for 1879-80 may be prepared in accordance therewith.

3. Ordered also that copy be forwarded for information and guidance to the Survey and Settlement Commissioner, Commissioner, Nagar Division, Deputy Commissioner, Kadur District, and Superintendent of the Inam Settlements.

Read—

Docket No. 2762—1854, dated 27th March 1879, from the Deputy Commissioner, Kolar, reporting that the revenue derived from the Dasavandam inam in the village of Kodikonda of the Hindupur Taluk, Bellary District, is shewn in the Kolar District accounts as kandayam in Class II, No. 7, and enquiring if this land should be measured and demarcated by the Survey Department.

No. 333—Rev. 12, dated 15th April 1879.

Order.—The land in question was exchanged many years ago for land in the village of Bagepalli, Gumnayakanpalya Taluk, through which a channel was cut to supply the Kodikonda tank; the land has never been ceded to Mysore, and is not Mysore State land, but it is held by the Mysore State as inam, and the payment made by the occupant to the Mysore State is therefore rent and not kandayam.

2. Under these circumstances the Survey Department will not measure, class or demarcate the land which is not affected by the application of Act 1 of 1865 to Mysore. After the settlement of the Gumnayakanpalya Taluk the payments made on account of the above Dasavandam inam land will be entered in the accounts of the village in which they are received as an item of land revenue other than land assessment (*itar utpan*). Until the settlement there is no occasion to disturb the present practice.

W. J. CUNINGHAM,
Offg. Secretary.

To- The Survey and Settlement Commissioner.
" Superintendent of Survey.
" Commissioner, Nundydroog Division.
" Deputy Commissioner, Kolar.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 15*th April* 1879.

From the Survey and Settlement Commissioner of Mysore, To the Secretary to the Chief Commissioner of Mysore, General Department, No. 273, dated Poona, 24th March 1879.

The Survey Commissioner begs to recommend the enclosed proposals for adoption

From the Offg Superintendent, Mysore Revenue Survey, To the Survey and Settlement Commissioner of Mysore, No. 263, dated Kibbanhalli, 19th March 1879.

I beg to forward the following proposals for the assessment of the kans of the Ságar Taluk which although the Survey settlement was introduced into the taluk in question in the year 1875, have for various reasons stood over until the present time.

2. According to the returns obtained, the occupied kans consist of 241 survey numbers with a gross area of 45,657·34 acres on which the collections for last year amounted to Rs 1,363—11—11, the collections from the year 1867 up to the year 1873 are shewn as averaging about Rs. 2,500, *vide* para 42 of this office letter, dated 15th March 1873, to your address, published under Chief Commissioner's Proceedings, dated 1st September 1874, on the subject of the revision of the assessment of the Ságar Taluk.

3. The whole of a kan is not always what is called for the sake of distinction "cultivated," that is, it does not all produce black pepper or sago palm trees, in such cases I have had a rough estimate made of the proportions "cultivated" and uncultivated and calculated my proposed assessment accordingly. There is little or no coffee cultivation in the kans now under consideration, all coffee where found to exist having been measured into separate survey numbers

4. The old rates of payment have been very unequal varying from rates of about 1 pie to Re. 1 per acre.

5. The rates I propose are from annas 4 to anna 1 per acre. The former rate I have only applied to a very few of the best kans in the north of the taluk where the pepper vine grows well and the kans (to which this rate is applied) are small and carefully tended: to the centre of the taluk I have applied rates of from 2 to 3 annas, and in the south and west towards the ghats rates of 1 anna and in a few cases less.

6. In assessing these kans, I do not pretend to have gone into anything like an accurate estimate of the proportionate value of each individual kan; but have assessed them arbitrarily in accordance with my general knowledge of the country, their position, their previous payments and the rates that have been already sanctioned for the Sorab Taluk on the north and the Nagar Taluk on the south.

7. Unoccupied kans I have not assessed; these, together with any of those resigned on the introduction of my proposed rates or at any future period should, under the procedure adopted for the adjoining taluks, *vide* Chief Commissioner's No. 1423—21 of 23rd May 1878, on the subject of the Nagar kans, never again be given out on assessment, but the right to jungle produce be sold yearly.

8. The rights of occupants of kans under the Survey assessment should, I presume, be the same as those already sanctioned for the Nagar Taluk in the Chief Commissioner's order quoted above, and the proposed rates have effect for 5 years from date of their application.

9. The result of the proposed assessment will be Rs. 1,804—12—0 against last year's collections of Rs. 1,363—11—11, an increase of Rs. 441—0—1; very possible some of the extensive kans towards the ghats, although assessed as stated above at one anna an acre and less, will be thrown up; as far as I can see they are of little or no real value to the present occupants, who merely pay their present assessment for them because they have been accustomed to do so from time immemorial.

10. Should sanction be granted to the above proposals, I am prepared to at once issue detailed statements to the Deputy Commissioner shewing the assessment of each kan in the taluk.

11. I beg to suggest that the new rates be made applicable to the year 1879—80.

No. 338—Rev. 13, dated 15th April 1879.

Order.—The rates proposed in the above for the occupied kans in the Ságar which are sanctioned for 5 years from 1st April 1879.
kan th

2. No kan at present unoccupied and none now under occupation which may hereafter be resigned shall be given out for occupation on yearly payment, but the right to collect jungle produce of unoccupied kans may be sold annually by auction.

3. No kan may be given for coffee cultivation and further planting of coffee in occupied kans is prohibited.

4. In supersession of No. 2434—357, dated 2nd July 1878, the following amended Notification defining the rights of occupants of kans in the Nagar Malnad Taluks will be published in the *Mysore Gazette*.

W. J. CUNINGHAM,
Offg. Secretary.

To—The Survey and Settlement Commissioner.
,, Commissioner, Nagar Division.
,, Compiler, Mysore Gazette.

NOTIFICATION.

The 15th April 1879.

The occupant of a kan has the right to tap toddy trees, subject to the Abkari Rules, and to cultivate pepper, also to collect gum and honey and all jungle produce; he may further collect leaves (soppu) for manure for use in the kan itself, and cut underwood to the extent absolutely necessary for securing the growth of the pepper vine.

2. But the kan-holder has no right to fell any timber whatever, nor any right whatever over the reserved trees growing in the kan. If the kan-holder cuts or injures the timber in any way or lops a reserved tree, for soppu, the terms of the tenure of the kan shall be considered to have been broken and the kan shall be resumed, the offender being further liable to punishment for breach of the Forest Rules.

3. The kan-holder has no right to plant coffee in the kan and infringement of the conditions of the kan tenure by planting coffee will render the kan liable to be resumed.

By Order,
W. J. CUNINGHAM,
Offg. Secretary.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 29th April 1879.

From the Survey and Settlement Commissioner, Mysore, To the Secretary to the Chief Commissioner of Mysore, General Department, No. 134, dated Poona, 12th February 1879.

No. 1045 of 31st Dec. 1878.

I have the honor to forward the accompanying letter and appended correspondence from the Officiating Superintendent, Mysore Revenue Survey, proposing revised rates of assessment for the Haranhalli Taluk of the Hassan District, comprising 205 Government villages.

2. As usual, the rates of assessment to be proposed for this taluk were in the first instance ... before the proposals were put into official form fully discussed between the Superintendent and ...yself, and the proposals here made were the result of that discussion ; to detail and elucidate those results was then left to the Superintendent which he has done in the report now forwarded.

3. The statement at para 23 of the Superintendent's report exhibits the revenue history of this taluk for the past twenty-five years. The first year shews actual collections. Rs. 52,301, which amount went on year by year gradually increasing till 1864—65 when the sum of Rs. 70,789 was attained, and from that year till 1876—77 Rs. 70,000 was never fallen short of and Rs. 76,000 was never attained. As usual the highest amount ever collected was attained in the years 1866 and 1867 after which a gradual though slight decline in the realized revenue occurred up till 1874—75, when a considerable recovery occurred. Remissions appear only opposite the years antecedent to 1863—64, the absence of any in and since that year is I apprehend due to the practice of recording as the demand only the amount actually collected as finally settled at the annual jamabandi, all amounts then remitted being struck off the so called demand. In this taluk the collections for the last twenty years have been singularly steady, the averages for five, ten and twenty years being each between the sums of Rs. 70,032 and Rs. 72,521. This steadiness of the collections would indicate an assessment which no where pressed heavily.

4. In the face of most steady collections the recorded bijvari area or rather valuation of land in occupation each year exhibits most extraordinary fluctuations and inconsistencies. For instance, the garden kandis in 1876—77 are ten times the number of those entered, but four years before, the rice kandis close on double and the dry crop kandis more than thirteen times ; no explanation of this is given in the Superintendent's letter, it can only have arisen from some change in the mode of recording the old bijvari units. Though some explanation should have been obtained of this very extraordinary change in the bijvari record, the absence of it is not of the smallest consequence as the old bijvari record is never of the smallest value or trustworthiness ; in fact no one, not even the Shanbhog himself, could point out what constitutes a true bijvari unit on the original standard.

5. The second statement at para 23 of the Superintendent's report exhibits the prices which are, according to the taluk records, said to have prevailed during the past twenty-five years. The range of prices run on the whole very closely with the fluctuations in the collections ; 1866 and the following year shew the highest point attained ; the fall till 1873 is coincident with the fall in the revenue, the partial recovery of which in 1874—75 is accompanied by a rise in the realized revenue ; the general revenue demand has in fact accommodated itself to the changes in prices ; this could only be from the cultivated area increasing and decreasing as prices rose and fell, and that this did occur the Bijvari record of occupation on the whole bears out.

6. The rates of assessment nominally in force are explained in the Superintendent's 26th para. These could have been no more than nominal rates ; had the average or medium amount of these rates been really collected, the revenue must have been much more than double what it has been.

7. The rates proposed to be introduced now are explained in para 28 of the Superintendent's report. They are in general assimilation to the rates introduced in past years in similarly situated country to the north and west, and will, I believe, prove suitable in this taluk also.

8. The incidence of the proposed rates is explained in para 33 to 35 of the Superintendent's report and the estimated result in para 38. It is there shewn that the State land revenue of 1876—77 on occupied land was Rs. 72,126 ; the Survey assessment of the same land under the proposed rates is Rs. 81,378. From this however the following deductions have to be made :—

9. For contribution to Irrigation Fund.. .. .. Rs. 1,962
For payment of village officers on permanent scale of remuneration ,, 5,000

Total.... 6,962

which leaves the net estimated State revenue under the Survey at Rs. 74,416, or Rs. 2,290 more than the realizations under the same head on the land occupied in 1876—77.

10. The cultivators will in future be relieved from all payments to the Patels and Shanbhogs in the shape of "Mirasi Haks" or direct levies of grain by those officials; this is a relief from a serious and often very vexatious burden and is cheaply obtained at the increase of Rs. 5,000 to the revenue collectible, the amount estimated as that required to pay the village officers.

11. It is possible that there may be some increase in the realizations from grazing under the improved system introduced after the Survey settlement; the amount of this is uncertain and therefore I make no estimate on account of it.

12. It must be understood that the above comparative estimate is based upon the area ascertained by the Survey to be under occupation in 1876 antecedent to the famine. Since that time some of this land must have been thrown up, how much will only be ascertained at the Survey settlement. It is however probable that the worst land bearing the lowest assessment will be that thrown up, which may therefore comprise a considerable area without greatly affecting the revenue. I should much doubt if good land of any kind, garden, rice, or dry crop, will be resigned, or if resigned will not be almost at once taken up by some one else.

13. In para 30 the Superintendent shews that there was even in 1876 before the famine a considerable area of Government arable unoccupied land amounting as follows:—

	Acres.	Survey Assessment.
Garden	236	570
Rice	1,392	5,205
Dry crop	34,039	22,595
Total...	35,667	28,370

14. Under existing circumstances it is of course impossible to look for any early occupation of much of this waste land; still however it is possible that some of the garden and rice land may be brought into occupation at no distant date under the stimulus of fixed and moderate rates. As regards the dry crop land it is not probable even that, had there been no famine any very large proportion would have come into occupation for some time to come, either before population had much increased or the improvement in external communications had created a much larger demand for produce for export than exists at present.

15. Under any circumstances this large area of unoccupied waste land, some of it at any rate of fair quality, indicated the necessity of moderation in the assessment to be now proposed, and that this was not a taluk in which any large increase of revenue could be justly obtained on the area in occupation. After such a calamity as that of the famine this consideration presses with special force. In consequence of the doubt existing regarding the area of land resigned, it is impossible to make such an accurate forecast of the revenue under the first year of the settlement as is ordinarily feasible. Still I am inclined to expect that it may not prove materially less than the average realizations of the past five years and that before another three years have passed that amount may be considerably exceeded.

16. As regards local cess the following is the comparative statement of past and future estimated realizations:—

Before the settlement ½ anna cess realizations	Rs. 2,320
Estimated realizations from one anna cess under the settlement on Government occupied land..	„ 5,086
Do do do on minor Inam lands	„ 440
Total	„ 5526

an increase of Rs. 3,206.

17. The inequalities of the old assessment were very great, but probably not more so than is usually met with, the indefinite nature of the old system of assessment necessarily afforded unbounded facilities for irregular assessments. As regards whole villages these inequalities always shew heaviest in small villages, where from the small area and limited number of holdings there is not room for one irregular assessment to be compensated for by another in the opposite direction. It will be observed that the villages given as specimens of extraordinary increase and of extraordinary decrease in the Superintendent's 43rd para are such villages of very small area and revenue.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 29th April 1879.

18. I beg now to recommend the proposed settlement for the approval and sanction of the Chief Commissioner. The rates proposed are generally admitted to be fair by the Commissioner of the Ashtagram Division, though he expresses doubt if the maximum rate of Rs 8 per acre would be paid for rice land except under exceptional circumstances. To this I would only call attention to the Superintendent's 34th para where it is shewn that the actual approximate rate on rice land having a permanent water supply and capable of producing sugar-cane in triennial rotation, and therefore in the other years rice with an after crop of some gram or pulse, will practically be about Rs. 5—4—0 in the villages under the Rs. 8 maximum. In very rare cases indeed would Rs. 7 per acre be attained. The maximum rate would only be applicable when first class soil and a certain perennial water supply were formed in combination, a very rare occurrence. In this case the proportion of the assessment due to soil would be about Rs 2—4—0 and to water about Rs. 5—12—0 which is most certainly an exceedingly moderate water rate. All experience shews that a rate ranging from Rs. 8 to Rs. 5, according to quality of soil, on land capable of giving a double crop every year and a sugar cane crop every third year is most moderate; it is certainly much more moderate than the rates realized under new irrigation where a water rate is imposed.

19. I beg that these proposals may be taken into early consideration as it is desired to commence with the actual giving out of the rates in the course of next month, and that if approved sanction may be given for the issue of the usual guarantee for 30 years.

20. In the 55th para the Superintendent refers to the present very inconvenient shape of this taluk and alludes to some changes regarding which he has been in correspondence with the Commissioner of the Division; the proposed changes will, I apprehend, come up for sanction in a separate communication.

From the Officiating Superintendent, Mysore Revenue Survey, To the Survey and Settlement Commissioner of Mysore, No. 66, dated Hariharpur, 22nd January 1879.

I have the honor herewith to forward papers as per margin on the proposals regarding the revision of the assessment of the Haranhalli Taluk of the Hassan District, and to request that sanction may be obtained as soon as possible.

1. Survey Superintendent's Report No. 1045, dated 31st December 1878, and its accompaniments.
2. Survey Superintendent's letter No. 1046, dated 31st idem, forwarding the above to the Commissioner, Ashtagram Division.
3. Ashtagram Division Commissioner's letter No. 107, dated 14th instant.

2. Letter No. 1077 of 14th January 1879 from Commissioner, Ashtagram Division, calls for no remarks beyond noting that the great increase in the assessment of Siddapur referred to by him is due to the low assessment that village has hitherto paid; 50 acres of dry crop land, better than the average, has hitherto only paid a total assessment of Rs. 11, *i, e,* at the rate of Rs. 0—3—6 per acre. Under such circumstances a large increase on revision of assessment is not to be wondered at.

From the Offg. Superintendent, Mysore Revenue Survey, To the Survey and Settlement Commissioner of Mysore, No. 1045, dated Tiptur, 31st December 1878.

I have the honor to submit the following report on the revision of the assessment of the Haranhalli Taluk of the Hassan District of the Ashtagram Division.

2. The taluk is situated on the road about half way between Bangalore and Shimoga, and is bounded on the north by Budihal, on the east by Honnavalli, on the south by Channaraypatna and Hassan, and on the west by the Taluks of Belur.

Boundaries.

and Banavar.

3. It contains villages which are divided into Magnis as shewn in the following statement:—

Sub-Divisions.

No.	Magni.	No. of Government Villages.	No. of Inam Villages.	Kavals.	Total.
1	2	3	4	5	6
1	Haranhalli	33	1	1	35
2	Kalyadi	32	...	1	33
3	Kuruvanka	26	2	...	28
4	Kitanakere	40	...	...	40
5	Gandsi	35	...	3	38
6	Arsikere	39	...	1	40
	Total.....	205	3	6	214

This report refers to the Government villages only and in all calculations of area, &c., the inam villages are not included except where specially mentioned.

Natural Statistics.

4 It has a length from north to south of about 30 miles and being shaped somewhat like an hour glass, a breadth varying from 3 to 20 miles from east to west.

5. Immediately north of the high road is the compact mass of hill which is known by the name of the Hirikalgudda rising in some places to a height of about 1,000 feet above the surrounding plain ; the south-western portion is interspersed with numerous rocky hills of considerable height ; the remainder of the taluk is composed of the undulating plain which prevails throughout the centre of the Mysore Province.

6. The Head-quarters of the Amildar are at present at Haranhalli, but I believe the question of the transfer of this office to Arsikere situated on the high road is under consideration ; this latter place would be in every respect preferable to Haranhalli.

Rainfall.

7. I estimate that the rainfall varies from close on 30 inches in the south to about 20 inches or even less in the north. The return of the Register kept by the Amildar is perfectly useless, as during the past 10 years he gives yearly rainfall varying from 253 inches to 1½ inch. I have had similar absurd returns furnished for other taluks which shew that instructions as to recording rainfall have either not been given or are not understood by many Amildars.

Climate.

8. The climate is generally healthy, but during the past few years famine and cholera have made great ravages amongst the population.

Soils.

9. The prevailing soil is of a sandy grey color, improving in quality in the hollows, but so poor on the high lying lands as to be in many places unculturable. The wet lands vary from fair to good quality.

Dry crops.

10. The dry crops grown are ragi, sáme, castor oil, &c., and wherever possible tobacco and chillies ; the tobacco is said to be inferior to that grown in Banavar and Belur, but chillies flourish, especially in the south-west. These last two articles together with cocoanuts are the specialities of this part of the country and are largely exported. In the few places where dark colored soils are found, wheat and Bengal-gram are grown.

Wet crops.

11. Rice of the coarser descriptions is the common crop in the wet lands and this is usually grown as a "Vaisak" crop, *i. e.*, is reaped about June ; two crops of rice are seldom or never here taken off the same ground in the same year

The water supply of only a few of the tanks is sufficient to permit the cultivation of sugar-cane, which here takes nearly 18 months to mature.

Garden crops.

12. Gardens must be classed under the heads of irrigated and unirrigated. In the first are grown, with the help of either tank or well water, supari, cocoanuts, plantains, vegetables, &c ; they are generally speaking not first-rate of their kind. In the second are grown cocoanuts, with some dry crop between the trees. These gardens are in selected places of low lying land in the vicinity of water, as the young trees have to be watered by hand for the first two years ; the cocoanut gardens of this and the touching taluk

of Honnavalli are the best in the province, the average yield per tree is about 70 nuts per annum; the northern drier part of the taluk suits the tree better than the south. In many places they permit the nuts to ripen on the tree until they drop which I have never seen down elsewhere.

Irrigation.

13. There are no streams or nullas of any size in the taluk and none are used for channel irrigation.

14. The tanks are numerous, but with a few exceptions small and much silted up as is usually the case where sandy soil prevails; wells are comparatively few, as may be understood from there being only 280 acres of land in the whole taluk irrigated solely by wells.

Cattle.

15. There were a large head of cattle a few years ago, some of them of good breed, but they have suffered so much during the past 3 years of drought that it is impossible to say what stock now remains.

Tenure and terms of sub-letting.

16. The tenure is ryotwari and the terms of sub-letting the same as prevail in the adjacent settled taluks and which have been described in detail in previous settlement reports.

Forests.

17. There are no forests properly so speaking in Haranhalli, but the Hirikalgudda and other rocky hills referred to in para 5 above are more or less covered with scrub jungle, and the preservation of the Hirikalgudda by the Forest Department is under consideration. In the low country the wild date abounds; some of the land occupied by it is reclaimable and suitable for cocoanut cultivation.

Roads.

18. The first class road from Bangalore to Shimoga runs through the centre of the taluk and is met at Arsikere by a first class road from Mysore; from Arsikere also a second class road runs through Haranhalli to Hassan and another second class road from Hassan to Tiptur passes through the southern portion of the taluk A second class road has, I believe, during the past year been commenced running north east from Arsikere which will open out the unroaded magnis in that direction; what progress has been made in this road I don't know. Country cart roads from village to village exist everywhere and every village is accessible to carts.

Markets.

19. Small weekly markets are held at Haranhalli and Arsikeri, but they are of little importance. The large markets of Tiptur, Banavar, Jamgal, Hassan, Alur and Duda situated in the surrounding taluks are all within reach and are freely resorted to by the ryots. Of the above, Tiptur is the most important, being in fact the largest market in central Mysore.

Manufactures.

20. The manufactures are of little importance. Native blankets and white cloths such as the ryots ordinarily use are made in almost every village. Iron is made near the hills, but it is stated to a much less amount than used to be made formerly; the quality is considered inferior.

Exports and Imports.

21. The principal exports are tobacco and chillies from the southern magnis, and cocoanuts from the northern. The imports are supari, &c., (in transit) from the Malnad, and piece goods, Birmingham wares, &c., from Bangalore.

Statistical information.

22. The following is an abstract of the statistical information collected by our classers during the progress of our work. This information was collected in the hot weather of 1876 since which famine has caused considerable changes in some of the particulars:—

Villages.	Houses.	Population.	Square miles.	Cattle.	Carts.	Ploughs.	Market Towns.	Remarks.
1	2	3	4	5	6	7	8	9
205	10,546	38,794	263	85,608	1,153	7,989	2	

The population gives an average of 148 to the square mile or an average of 245 to the square mile on the culturable area only.

Past collections and prices.

23. In the following statements are given details as to the collections during the past twenty-five years, and the prices that have obtained during the same period as far as can be ascertained from the taluk records:—

Years.	Old (Maji) Bijavari in Khandis.				Total Demand.	Remissions.	Total Collections.	Remarks.
	Garden.	Rice.	Dry Crop.	Total.				
1	2	3	4	5	6	7	8	9

76—77	7	2	4	10	6	8	12	3	10	6	5	0	

Remarks on past collections, &c.

24. It will be seen on looking at the above statement that the collections increased pretty steadily up to the year 1866—67. When they reached the largest amount on record Rs. 75,958 and maintainingnearly this figure for two years, they dropped to about Rs. 73,000, from which they have not altered much up to the last year shewn, 1876—77.

25. It will be noticed that although the sum of Rs. 72,126 has been entered by the Amildar under the head of collections for the year 1876—77, of this sum only Rs. 40,274 were actually realized up to the close of the year 1877—78 and Rs. 31,852 still remained then outstanding. This large balance, it is almost needless to mention, is owing to the exceptional time of famine and distress which has existed during the past two years throughout the plain taluks of the Province.

26. The nominal rates that have obtained hitherto on previously unassessed lands given out for cultivation are stated by the Amildar (when the rates of touching cultivated lands were not applied) to have been as follows :—

Dry crop land from Rs. 0—4—8 to Rs. 4—0—0 per kudu equal to about Rs. 0—7—0 to Rs. 6—0—0 per acre.

Rice lands from Rs. 8—11—8 to Rs. 6—11—8 per wet khandi equal to about Rs. 4—0—0 to Rs. 16—0—0 per acre.

Garden lands from Rs. 4—8—0 to Rs 12—8—0 per acre.

These nominal rates, at all events in the higher classes, are far above anything proposed by us in any part of Mysore, and I should doubt their ever having been applied.

27. The present Deputy Commissioner of Hassan was referred to as to whether he had any suggestions to make concerning the incidence of the old rates, or proposals for the future, but he replied that his experience of this taluk was too limited to enable him to give any opinion ; in a conversation I had last year with Major Hill who has been for many years in charge of the Hassan District, that officer gave me his opinion that generally speaking he considered the taluk well-to-do and referred especially to its productive powers in the matter of cocoanuts, chillies and tobacco.

Grouping of villages and maximum rates.

28. For distributing the assessment in this taluk I have formed it into three groups and propose to fix rates on the maxima entered below:—

Group.	Villages.	Maximum Dry Crop rate.	Maximum Rice rate	Maximum Garden rate.
1	2	3	4	5
I	149	2 4 0	8 0 0	Rs. 16 for tankir-rigated and Rs. 8 for well and cocoanut gardens.
II	16	2 0 0	7 8 0	
III	40	1 12 0	7 8 0	

In the I group is the whole of the centre and south of the taluk which is well found in roads leading to the market towns of Tiptur, Banavar, Hassan, Aiur, &c ; the rain-fall also of this part is superior. The II group is composed of the part immediately north of the preceding. In the III group are the villages situated in the north of the Hirikalgudda and touching on the Chitaldroog District where the rain-fall is less, and advantages as to roads and proximity to markets inferior.

Result of proposed rates on occupied lands.

29. The result of these rates on the lands in occupation during the year 1876, is tabulated in the following statement :—

Group.	No. of Villages.	Garden.			Rice.			Dry Crop.			Total.	
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres	Assessment.	Average rate.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11	12	13
I	149	2,782	11,899	4-4-5	1,089	4,540	4-2-8	38,846	38,122	0-15-8	42,717	54,561
II	16	507	2,350	4-10-2	76	370	4-13-4	2,743	2,266	0-13-3	3,326	4,986
III	40	3,797	13,682	3-9-8	144	517	3-9-5	10,076	7,632	0-12-1	14,017	21,831
3	205	7,086	27,931	3-15-1	1,309	5,427	4-2-4	51,665	48,020	0-14-10	60,060	81,378

Note.—The higher average rates in the lower groups is owing to the intrinsic value of the soil, &c., being higher.

Result of proposed rates on waste culturable lands.

30. The area and assessment of the waste lands available for cultivation are as follows :—

Group.	No. of Villages.	Garden.			Rice.			Dry Crop.			Total.	
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11	12	13
I	149	76	291	3-13-3	1,275	4,870	3-13-3	21,385	15,548	0-11-7	22,736	20,709
II	16	33	59	1-12-7	23	33	1-6 11	2,009	1,228	0-9-9	2,065	1,320
III	40	127	220	1-11-9	94	302	3-3-5	10,645	5,819	0-8-1	10,866	6,341
3	205	236	570	2-6-9	1,392	5,205	3-11-10	34,039	22,595	0-10-7	35,667	28,370

Result of proposed rates on Minor Inam lands.

31. The extent and assessment of the minor inam lands situated in the Government villages is shewn below :—

Group.	No. of villages.	Dry Crop.		Rice.		Garden.		Total alienated lands.		Remarks.
		Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	
1	2	3	4	5	6	7	8	9	10	11
I	149	3,655	3,022	593	2,436	101	652	4,348	6,110	
II	16	136	96	11	52	17	122	164	270	
III	40	577	411	34	120	42	128	653	659	
3	205	4,368	3,529	638	2,608	160	902	5,165	7,039	

Result of proposed rates on the whole taluk.

32. The next statement shews the result of the imposition of the proposed rates on the whole arable area of the Government villages of the taluk, occupied, waste and inam :—

Group.	No. of Villages.	Collection for year 1876—77.	Survey, Assessment, &c.									
			Government occupied		Government waste.		Total wastes and occupied.		Alienated lands.		Total Government and Inam.

			Area of unassessed grazing lands, roads, village sites, &c.								... 67,658	
			Gross area of 3 Inam Villages ...				...		...		... 1,973	
			Gross area of 6 A. M. Kavals ...				...		...		... 12,899	
			Total area of the Haranhalli Taluk, *i. e.* about 287 square miles.....								183,422	

33. I will compare the average rates of assessment for the whole taluk, class by class, as formerly realized, with those now proposed. The area ascertained by the Survey is the basis of calculation; in the old collections those on rice and garden are so mixed up that for the sake of comparison I have been obliged to make one average for the two combined :—

Comparison of old and new average rates.

Group.	Dry Crop.						Garden and Rice.					
	Survey area acres.	Old Collections.	Survey Assessment.	Old average rate.		Survey average rate.	Survey area acres.	Old Collections.	Survey Assessment.	Old average rate.		Survey average rate.
1	2	3	4	5		6	7	8	9	10		11
I	38,846	36,741	38,122	0 15 2		0 15 8	3,871	11,307	16,439	2 14 9		4 3 11
II	2,743	2,981	2,266	1 1 5		0 13 3	583	2,300	2,720	3 15 0		4 10 8
III	10,076	7,265	7,632	0 11 6		0 12 1	3,941	11,529	14,199	2 14 10		3 9 8
3	51,665	46,990	48,020	0 14 7		0 14 10	8,395	25,136	33,358	2 15 11		3 15 7

34. The above are the average rates for the whole taluk, class by class, and in para 28 above I have given the maximum rates from which they have been deduced. I will now shew approximately how the rates will fall on the most common soils that are found.

Explanation of how proposed rates will actually fall.

If situated in groups.	I	II	III
Average red soil which produces one crop of ragi every year will pay per acre about	1—0—0	0—14—0	0—12—0
Rice land capable of producing one crop of rice	3—6—0	3— 3—0	3— 3—0
Rice land capable of producing sugar-cane and rice in the ordinary rotation	5—4—0	4—15—0	4—15—0

The above are approximate rates only: variations in the soil or the supply of water, distance of field from the village, the size of the village itself, &c., will cause the rate to vary from that shewn in accordance with the estimated value of advantage or disadvantage thereby derived.

Average garden rates

35. The average of the garden rates proposed is as follows ; each garden as usual has been assessed on its individual merits :—

Tank irrigated garden	Rs.	5	5	4
Well irrigated garden	Rs.	3	14	6
Cocoanut garden	Rs.	3	6	9

Grazing and fruit trees.

36. The realizations for the year 1876-77 from grazing and fruit trees were Rs 1,801, and for the sake of comparison we may estimate the future collections from these sources to be of the same amount after the introduction of the survey rates.

Local Cesses.

37. As regards the land only, the local cess of ½ an anna in the rupee brought in a sum of Rs. 2,320 for the year 1876-77.

Under the Survey settlement the realizations under the heads of local funds and irrigation cess on minor inam lands will be as follow :—

	Rs
Local cess of 1 anna in the rupee on the cultivated lands	5,086
Local cess on Minor inam lands	440
Equivalent of Irrigation cess on Minor Inam lands	206
Total Rs....	5,732

Total results of the whole settlement.

38. Comparison of the realization under all heads of land revenue for the year 1876-77 with those estimated for the year succeeding the introduction of the Survey settlement is here made :—

	Rs.
Land Revenue, 1876-77	72,126
Grazing and fruit trees	1,801
Half anna local cess	2,320
Total under old system....	76,247
Survey assessment of occupied lands	81,378
Grazing and fruit trees	1,801
One anna local cess	5,086
Do do on Minor Inams .. .	440
Equivalent of Irrigation cess on Minor Inams	206
Total under Survey system....	88,911

39. The gross increase in the demands under the head of land revenue deducting local cess ; &c , is therefore Rs. 9,252 : from this the sum of about Rs. 1,962 will have to be credited to the District Irrigation Fund and about Rs. 5,000 will be required for the payment of village officers. The immediate and direct gain to the Government from the introduction of the survey into the Haranhalli Taluk will therefore amount to about Rs. 2,300.

40. As noted above, the sum of Rs. 1,962 on account of the Government irrigated lands and Rs. 206 on account of equivalent of Irrigation cess on minor inams, total Rs. 2,168, will have to be credited to the District Irrigation Fund.

District Irrigation Fund.

41. Under the scale laid down in Chief Commissioner's order No. 219 of 27th October 1874, the pay of the village officers has been estimated at Rs. 5,700. The amount of "Profit from service lands" may amount to about Rs. 300 and their present pay is Rs. 405 which will leave about Rs. 5,000 to be made good out of the Treasury.

Pay of village officers.

42. The payments on account of mirasi haks in this taluk appear to vary much in different villages and to be as usual more or less irregularly paid. From what I can learn the following appear to be the usual rates, to the Shanbhog, each ryot pays from 2 to 8 seers of grain, equivalent rates are paid on the cocoanut and other gardens, and the Amildar estimates that from these sources each Shanbhog receives the equivalent of from 30 to 100 Rs. per annum and that the whole collectively get nearly Rs 2,500 worth of produce There does not appear to be any recognized rate of haks to Patels and they receive little or nothing. I do not place much confidence in these estimates of the Amildar, but it is very difficult ever to obtain any trustworthy information on this subject. After the introduction of the survey, these grain payments to the village officers cease, and the ryots will be freed from what is often a very troublesome, the more so because undefined, exaction : their payments of haks to the village servants, Totis, Talavars. Nirgantis, &c., will continue as heretofore.

Grain payments of village officers.

43. As our Survey assessment affects different villages to a different degree, I here compare a few of those most increased with some of those decreased, from which it will be seen that the difference is caused entirely by the inequality of the old rates :—

Specimen villages showing great increase and decrease.

In detail Statement A.																	
No	Class.	Name of village.	Old Assessment.	Survey Assessment.	Percentage Increase and Decrease.	Average garden rate.			Average rice rate.			Average dry crop rate.

20	III	Halkur	1,656	1,245	25	3	10	8	3	13	2	1	0	0

44 The amount of waste land is very large, but a great portion of the waste dry crop land is of such poor quality that it is suited rather for grazing than for agriculture ; of course in the 34,000 acres of waste there is some good land, more than sufficient for any extent of cultivation that is likely to take place for the next few years.

General remarks.

45. The waste rice lands nearly equal in extent and in assessment those already occupied, and we may reasonably expect some of this to be taken up at an early date. Why there is now so much waste is rather the question, and I can only suppose it is owing to the high rates of the old assessment referred to in para 26 above, if such rates really existed.

46. It is always a difficulty in settlement reports to contrast fairly the old and new rates of assessment on rice lands owing to our definition of rice land not always corresponding to that maintained in the old accounts ; land formerly entered as rice comes under our definition of garden and for this reason to form such comparison we usually amalgamate the garden and rice collections un-

der one head, but in the taluk now under consideration this plan will not answer on account of the existence of such a large area of unirrigated cocoanut garden. In the progress of our enquiries in the field we often found such gardens still entered in the old accounts as the dry crop land which it really was before cocoanut trees were planted; in some cases, no alteration in the designation and assessment may have been due to favoritism on the part of the inspecting taluk officials, and in others it may have been due to carelessness and superficial inspection.

47. The area of waste garden appears large, about acres 230, but as will be seen by the assessment averaging about Rs. 2—8—0 per acre it is of the poorest description.

48. The Amrut Mahal Department has several kavals in the south of the taluk and the presence of the herds thereon tends to a good stamp of cattle being bred; there is I believe some export of cattle to the Malnad; although the kavals belonging to above Department take up the best pasture lands, there is no want of grazing ground in every village.

49. There is a large amount of traffic on the road from Shimoga to Bangalore, as a great proportion of the produce of the Nagar Malnad taluks finds its way by this route to the markets of Tiptur, Gubbi, &c.

50. There is a yearly festival held in the month of July at the temple of Tripati near Arsikere which attracts about 5,000 people for about a week and during that time affords a good local market to the grain producers in the neighbourhood.

51. The Haranhâlli Taluk is one of those which has suffered most severely from the effects of the late famine and also from the attendant calamity of cholera; I am not aware what the loss of life has been shewn to be by Mr. Elliott's census, but it was doubtless considerable and must leave its mark for some years to come in decrease of cultivation and consequent loss of land revenue.

52. The area of occupied land shewn throughout this report is that which we found to exist in the year 1876. Since then owing to the death or migration of the ryots a great deal of this must have become waste; even of lands held by Brahmans and other not cultivating classes who have suffered to a less degree than the lower classes, much has been thrown out of cultivation owing to the want of working men.

53. Much of the land thus practically waste is still kept on in the accounts as occupied, and will so continue to be until a detailed jamabandi such as that which takes place at the time of the introduction of the Survey settlement finally strikes off the names of those ryots who have ceased to exist.

54. The estimate of collections on occupied lands after the introduction of the proposed settlement is put down in this report at about Rs. 81,000; but this being calculated on the basis of the land in occupation in 1876, we cannot hope that that sum will be realized for some years to come, and loss of revenue consequent on loss of population must be anticipated.

55. On reference to the sketch map of the taluk attached it will be seen that the present shape of the taluk is very inconvenient. I have had some correspondence with the Commissioner of Ashtagram, concerning the transfer of 19 villages from the Honnavalli Taluk on the east, and 20 villages from the Banavar Taluk on the west, to Haranhalli; these transfers if effected will fill up the two gaps on the right and left centre which give the taluk its present hour-glass shape. On the map I have shewn with dotted lines the boundaries of the 19 and 20 villages above referred to.

56. As desired by the Chief Commissioner in para 44 of his No. 11152—316 of 1st February 1877, a list of all the inam villages found to exist in this taluk is appended with remarks shewing how each has been treated by us with regard to survey.

Statement B shewing all Inam villages is appended.

57. Supplementary report by Mr. Butcher who was in charge of the classification operation in the taluk is appended.

Mr. Butcher's Report.

58. In conclusion I beg that sanction may be obtained to the proposals contained in this report in time to permit the introduction of the settlement in the month of March next.

2	Haratanahalli ...	Kayamgutta ...	Traverse Survey made.
3	Siddapur ...		Do

Report on the Haranhalli Taluk by Mr. E. H. Butcher, Assistant Superintendent, Revenue Survey, Mysore.

Haranhalli is a long and narrow taluk of irregular form running north and south, being about 30 miles long with an average breadth of about 12 miles.

Boundaries and Area

2. It is bounded on the north by Budihal, and Banavar south by Channaraypatna and Hassan, east by Honnavalli, and west by the Banavar Taluk. The surface of the taluk is very undulating rising here and there into rocky hills covered with scrub jungle ; these are most noticeable on the western border where they form a pretty continuous chain. The most remarkable hill is that known as the Hirekal-Gudda on which stands the celebrated Temple of Tripati.

3. The taluk consists of 6 magnis comprising 2035 Government villages as per margin with an area of 168,681 acres comprising 90,208 acres dry crop, 3,356 acres wet crop and 7,452 acres of garden land, the remainder being unculturable. There are also 3 inam villages with an area of 1,917 acres, and 6 kavals with 12,899 acres, bringing up the whole to 1,83,827 acres or roughly 280 square miles.

SUB-DIVISIONS.

Magni.	*No. of Village.*
Gandasi	35
Arsikere	89
Kalyadi	32
Haranhalli	33
Kurvanka ..	26
Kitanakere ...	40
	205

Population.

4. The last census gives the population as 41,296 souls, giving an average of 147 to the square mile which is pretty evenly distributed.

Rainfall.

5. I estimate that the fall of rain varies from 20 to 25 inches. In the northern magnis of Kurvanka and Kitanakere the former is about the average, in the central and south portion 25, whilst in the Kalyadi magni lying on the west it may amount to 30 inches, this tract being favorably influenced by the hills skirting the Aid-Halla. I do not place any reliance on the return of rain-fall furnished to me by the Amildar, the fluctuations being preposterous. In 1873 it is given at 30 inches, the following year only 1¼ inches, whilst again in 1875 it amounts to nearly 30 inches.

Irrigation.

6. There are no rivers or irrigation channels in the taluk. Tanks also are few and far between, there being only some 6 of any size and these are silted up to a considerable extent.

Roads.

7. The taluk is well found in roads. The Imperial road from Bangalore to Shimoga bisects it and is there met by a first class road from Mysore, with second class roads from Arsikere to Hassan and from Gandasi to Tiptur. It will be seen by a reference to the map that these roads enable the ryots to convey their surplus produce with ease to neighbouring markets. The Kitanakere sammat on the north east is not so accessible to wheeled traffic, but has the outlet of the Banavar and Budihal road at its extreme edge, which suits it, as its chief export, cocoanut, is conveyed to Bellary. A cross road, however, from Arsikere by Kamasandra to Kilkeri, is a desideratum as it would enable the ryots to communicate easily with Tiptur.

8. The dry crop soils are, as a rule, poor being of the grey and sandy kind, the greater portion being also very stony. In the village of Bagadi to the extreme south, excellent soil, both black and red, is met with. The soils of the

irrigated lands are generally good. The garden soils are also good, these being planted in low situations the soil also being an alluvial deposit.

Dry crops.

9. The chief dry crops are the following. The sammats towards the south. *viz.*, Gandasi and Arsikere, and in the western magnis of Haranhalli and Kalyadi, in which a large area is occupied by chillies grown entirely as a dry crop. The chillies are sown in beds in April and transplanted out at the time of the first showers in May. The plants are placed in rows 1½ feet apart, castor-oil being frequently mixed with it sown in drills 2 yards apart, leaving 2 rows of chillies in the middle. The crop is gathered in November and December and is a most profitable one. The shallow stony and sandy soils of this taluk seem admirably adapted for the growth of the crop. The rainfall being moderate and somewhat uncertain the shallow soils retain the moisture near the surface, and the stones, which cover the surface almost everywhere, act beneficially in keeping the ground cool. Almost every ryot has a certain portion of his holding planted with chillies, as it is with the sale of these that he pays his kandayam. Ragi is as usual grown everywhere, being the chief staple of food of the population, having frequently rows of avaré and castor oil mixed with it In the better soils, Bengal-gram and jola are grown, also wheat

Wet crops, cane.

10. Sugar-cane is only met with under 2 or 3 tanks, the principal being Bagadi and Talur where the soil is very suitable to its cultivation. The water supply is in general too uncertain to admit of the growth of cane. The variety grown is that known as the Patta Patti or striped cane. A small quantity of the "Marakhabbu" is grown in the villages of the western magnis Cane usually takes 18 months to come to maturity, being planted from March to May from cuttings taken from cane which is a year old.

Rice.

11. The rice raised is chiefly of a coarse red kind called Mungadd. Rice is almost invariably raised as "Vaisak" and not as "Kartik." In no case did I meet with a second crop of rice grown in one year.

Gardens.

12. The gardens are of two kinds, those consisting of areca, plantain, &c., irrigated by either tank or well water, and those known as dry crop cocoanut which, although not irrigated directly, are planted in low lying situations generally along the edges of nullahs and receiving moisture from high lying ground. Areca gardens are principally met within the centre and south of this taluk. They did not strike me as very productive. The cocoanut gardens which are chiefly confined to the two northern magnis of Kurvanka and Kitanakeri are very productive, the soil and situation being very favorable to the growth of the nut. The trees are usually planted 12 yards apart and come into bearing in from 8 to 10 years Between the trees where the soil is of good quality, Bengal-gram and javari are sown, and in red soils uddu, hesaru, and ragi chiefly as "Vaisak," the gardens being bunded during the rains causing the water to stand and thoroughly moisten all the ground. The nuts are taken from the trees every month and piled up. After 6 months they get thoroughly dry when the shells are broken and the nuts extracted and sold as "Khobri." A good cocoanut garden has from 30 to 40 trees to the acre and yields from 75 to 100 nuts per tree per annum. This I consider to be the average for the magnis of Kurvanka and Kitanakeri; for the remaining magnis where cocoanut gardens are met with, the average would be from 50 to 75 nuts.

Markets.

13. No market of any importance exists within the taluk, small ones being held at Arsikere and Kasba Haranhalli. The ryots of the northern magnis repair to Banavar and Kankatta in the Banavar Taluk. The centre have Tiptur to the east and Javagallu on the west, whilst the magnis to the south have Tiptur on one side and Alur and Duda in the Hassan Taluk, on the other. All these markets are within easy reach.

Exports.

14. The chief exports are chillies, oil seeds and ragi from the southern magnis, and cocoanuts from the northern ones It is impossible to estimate the amount of these transactions except approximately for cocoanuts, these being sent to Bellary and other places and requiring a pass. Three lacs of nuts are said to be exported chiefly to Bellary. Chillies sent to Tiptur and Bangalore, oil seed (chiefly castor) ditto; on cocoanuts sold in the Mysore country there is a duty of 1 pie per nut or 7 as. 6 pie per maund. Till 1864 there was a duty levied on the exportation of chillies of 5 per cent "*ad valorem*" of which they have since been relieved.

Imports.

15. The chief imports are the following, supari from the Malnad, piece goods from Bangalore, rice from Chikmagalur and Belur.

Old rates of assessment—Gardens.

16. In Kasba Haranhalli the areca gardens are not assessed on the trees but on the land. For plantains 100 "diahs" paid Rs. 1—2—8, a "diah" being 6 yards square. The rate for plantains was paid till the areca came into bearing after which the produce was on "Wara," Government taking half the produce of the areca, panvel and cocoanut being enjoyed by the cultivator.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 29th April 1879.

In 1863—64 when the batayi was converted into nagadi the kandayam was fixed on the candy of 10,000 square yards at Rs. 28. In other villages of this sammat the rate for plantains was paid till in bearing when it ranged from Rs. 5—10—9 to Rs. 13—8—5 per acre. Cocoanut gardens are assessed in some few places on the tree at from 2 to 4 pies but chiefly on the 100 diahs, taking up 6 kolagas of land, which when in bearing pay from Rs. 5—10—9 to Rs. 7—4—4, but to shew how nominal these rates are I would mention the case of a garden, met with in testing, of 5½ acres in extent having 75 old cocoanut trees besides young ones: the holder was paying the sum of Rs 2 yearly for the same.

Tari. 17. Cane is assessed at 13 As. 5 pies per "vakkala." This rate is on the land and not on the crop, and is the same whatever is grown

Rice ranges from 8—11—8 to Rs. 16—11—8 per wet candy.

Kushki. 18. The rates varygreatly in different parts, ranging from 2 As. to Rs. 1—1—4 per "vakkala"; the highest rates are found round the kasba itself, although the soils are very poor there as a whole.

Cattle. 19. The cattle are estimated at 83,937 head; of these a large number have died this year from want of pasturage.

Carts. 20. Of chakra bandis or common carts there are 513, but much of the country produce of the south is conveyed to Tiptur and other markets on pack bullocks.

Sub-letting. 21. Where land is sublet it is on wara, the pattadar taking half the produce and paying the assessment

Labor. 22. Labor is plentiful, a cooly getting 2 annas a day. A good many coolies go to work at the coffee plantations getting from 2 to 4 annas per day.

Kavals and grazing. 23. There are 6 Amrut Mahal kavals in the taluk; the grazing however is not of a superior description.

Manufactures. 24. There are no manufactures worthy of notice, a little iron is made in some of the villages near the hills, and looms for cumblies and coarse white cloth are found all over the taluk.

General condition of the people. 25. In conclusion I beg to state that I consider the dry crop soils of the Kalyadi sammat the most productive, they having superior rain-fall. The cocoanut gardens of the Kuvanka and Kitanakeri sammats are also more productive than those in other parts. The holders of these are decidedly well off, a very low estimate giving a net profit from this cultivation of one rupee per tree. And in years when the rainfall does not come up to the average, the ryots have their cocoanut gardens to fall back upon, these not suffering to the same extent as other kinds of cultivation.

I should say that the ryots all over the taluk were in fair average circumstances.

From the Offg. Superintendent, Mysore Revenue Survey, To the Commissioner, Ashtagram Division, No. 1046, dated Tiptur, 31st December 1878.

I have the honor herewith to forward, for your perusal and early return with such remarks as you may desire to make, my report on the introduction of the Survey settlement into the 205 villages constituting the whole of the Government portion of the Haranhalli Taluk of the Hassan District of your Division.

2. Accompaniments to the report in question are also forwarded.

P. S.—Reply at earliest convenience is solicited.

From the Commissioner, Ashtagram Division, To the Survey Superintendent of Mysore, No. 1077, dated Mysore, 14th January 1879.

I have the honor to acknowledge receipt of your letter No. 1046 of the 31st December 1878, and in reply to state that it is only necessary for me to make a few very brief remarks.

Para 23.—The grouping of villages appears to be in accordance with the advantages of their respective situations, and the new average rates for dry crop land are so near those of the old, that there can be little doubt of their being suitable. The collections on garden and rice being mixed

up, make the comparison less clear than in the case of dry lands. The average rates given in para 34, which are moderate, are admitted to be only approximate.

2. The inequality of the old rates must have been greater than usual, when in the case of Siddapur the result of the Survey assessment is an increase of 464 per cent, and the rate above the average for the group I.

3. I have nothing to say further than that the rates generally appear fair, though I should doubt whether the maximum of Rs. 8 per acre would be paid for rice land, unless in exceptional circumstances. I understood that a good deal of wet land was waste in consequence of the highness of the old rates and there appears to me to be comparatively little desire to hold land of this description, which is scarcely saleable, the ryots paying more attention to chilly cultivation than anything else.

4. The enclosures of the letter under acknowledgment are herewith returned.

No. 760—Rev. 6, dated Camp Ootacamund, 29th April 1879

With the above the Survey and Settlement Commissioner submits proposals for the revision of assessment of the Haranhalli Taluk in the Hassan District.

2. The taluk comprises 6 magnis or 214 villages with an area of 287 square miles or 183,422 acres.

3. These 214 villages are classified by the Survey Department as shown in the margin. Of these 3 inam villages, 1 is Sarvamanyam and 2 Kayamgutta. Valuation survey has been made in the former and traverse survey has been accomplished in the two latter. The Survey Superintendent's classification may be adopted, and the Commissioner of the Ashtagram Division is requested to adopt the same in his future accounts.

205	Government villages.
3	Inam do
6	Kavals.
214	

4. The details as regards climate, &c., of the taluk are furnished by the Superintendent in paras 7 to 21 of his report.

5. The prevailing soil of the taluk is (it is stated) of a sandy grey color, improving in quality in the hollows, but so poor on the high lying lands as to be unculturable in many places. The wet lands are reported to vary from fair to good quality. The taluk is well provided with roads, but sparsely populated.

6. For the purpose of distributing the assessment the taluk has been formed into 3 groups, and the Survey Superintendent proposes to fix the rates on the maxima entered below :—

Group.	Villages.	Maximum Dry Crop Rate.	Maximum Rice Rate.	Maximum Garden Rate.
I ...	149	2 4 0	8 0 0	Rs. 16 for tank irrigated, and Rs. 8 for well and cocoanut gardens.
II ...	16	2 0 0	7 8 0	
III ...	40	1 12 0	7 8 0	

7. In the first group is included the whole of the centre and south of the taluk which is well found in roads leading to the market towns of Tiptur, Banavar, Hassan, Alur, &c; the rain-fall also of this part is superior. The II group is composed of the part immediately north of the preceding. In the III group are the villages situated in the north of the Hirikalgudda and touching on the Chitaldroog District where the rain fall is less, and advantages as to roads and proximity to markets inferior.

8. The result of these rates on the lands (both occupied and unoccupied) is exhibited in the following statement:—

Description of Lands, &c.		Extent.	Assessment.
Government ...	I. Occupied	60,060	81,378
	II. Unoccupied	35,667	28,370
	Total. ...	95,727	1,09,748
2. Alienated minor inams in Government villages		5,165	7,039
	Total.....	1,00,892	1,16,787

9. The following comparative statement shews the gross increase in the revenue demand of the occupied area of the taluk under all heads :—

	Present Revenue, 1876—77.	Survey Assessment.	Increase.	Deduct— Irrigation Cess.	Deduct— Remuneration to Village Officers.	Deduct— Total.	Remaining Profit.
Land Revenue	72,126	81,378	9,252	...	...	...	...
Grazing and fruit trees, &c.	1,801	1,801	...	...	..	..	...
Total.....	73,927	83,179	9,252	1,962	5,000	6,962	2,290
Local Fund Cess	2,320	5,526	3,206	...	..	..	3,206
Grand Total.....	76,247	88,705	12,458	1,962	5,000	6,962	5,496

10. The following abstract shews the rates proposed to be fixed on occupied lands of the taluk as compared with those of the adjoining settled taluks :—

Group.	No. of Villages.	Proposed Rate. Dry. Maximum.	Dry. Average. On Government Lands. Occupied.	Dry. Average. On Government Lands. Unoccupied Waste.	Wet. Maximum.	Wet. Average. On Government Lands. Occupied.	Wet. Average. On Government Lands. Unoccupied Waste.	Garden. Maximum.	Garden. Average. On Government Lands. Occupied.	Garden. Average. On Government Lands. Unoccupied Waste.

11. The subjoined statement shews the incidence of the proposed assessment on the different classes of land in comparison with previous collections :—

Group.	Dry Crop.					Garden and Rice.				
	Survey Area Acres.	Old Collections.	Survey Assessment.	Old Average Rate.	Survey Average Rate.	Survey Area Acres.	Old Collections.	Survey Assessment.	Old Average Rate.	Survey Average Rate.
I. ...	38,846	36,741	38,122	0 15 2	0 15 8	3,871	11,307	16,439	2 14 9	4 3 11
II. ...	2,743	2,984	2,266	1 1 5	0 13 3	583	2,500	2,720	3 15 0	4 10 8
III. ..	10,076	7,265	7,632	0 11 6	0 12 1	3,941	11,529	14,199	2 14 10	3 9 6
3	51,665	46,990	48,020	0 14 7	0 14 10	8,395	25,136	33,358	2 15 11	3 15 7

12. The assessment on dry lands is considerably higher than in adjoining taluks, but does not materially exceed previous collections in the taluk. There is a considerable increase in the rice and garden assessment in comparison with previous collections, but the rates adopted are not in themselves high. Unirrigated cocoanut gardens were formerly classed as dry, and wet cultivation does not appear to be much in favor in the taluk, the extent of culturable unoccupied lands under this head being equal to the area of land under cultivation.

13. The settlement on the whole is an increase of Rs. 9,000 over previous collections, besides the doubling of the local cess. But the increase is nearly absorbed by the amount required for contribution to the Irrigation Fund and the remuneration of the village officers. The culturable unoccupied dry land is considerable in extent, but it is stated to be poor. There seems therefore no immediate prospect of an increase to the Government revenue. Indeed, as the taluk has suffered severely from the famine, there is more likelihood of a falling off in the revenue in the next few years.

14. On the whole the Chief Commissioner approves of the rates of assessment proposed, and sanctions the introduction of the settlement with the usual guarantee for thirty years.

15. If the information can be easily obtained, a statement shewing the extent of the land assessed at each rate would be useful in future reports.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 29th April 1879.

From the Survey and Settlement Commissioner, Mysore, To the Secretary to the Chief Commissioner of Mysore, General Department, No. 293, dated Bombay, 2nd April 1879.

I have the honor to forward for the sanction of the Chief Commissioner the appended letter* and statement and vernacular statements regarding the proposed permanent remuneration of the village officers of the 222 villages of the Channagiri Taluk of the Shimoga District.

* No. 200 of 28th February 1879.

2. It appears that a total amount of Rs. 10,426—12—0 is required for the remuneration of these officers according to scale (column 3). Of this, Rs. 1,388—8—0 (column 7) will be provided by additional jodi imposed on existing land emoluments and Rs. 3,063—8—0 (column 8) by existing cash allowances, leaving the sum of Rs. 5,974—12—0 (column 9) devolving as an additional burden on the State.

3. On the other hand it is shewn that there are surplus land emoluments in individual cases of Rs. 634 (column 11) on which an additional jodi of Rs. 317 (column 12) or one-half will be imposed, and there are surplus cash emoluments in individual cases of Rs. 20—10—0 (column 13) which will be at once abolished; thus the total sum of Rs. 337—10—0 is realizable as a partial set off against the sum above shewn as devolving on the treasury Rs. 5,974—12—0 reducing it to Rs. 5,637—2—0, which is the net sum which the putting the village officers of these villages on the permanent scale of remuneration will cost the treasury.

4. There can be no doubt about the amounts to be paid and how they are to be debited if ordinary care is taken since detailed statements are forwarded.

5. Vernacular Statement No. 1 (column 21) shews the amount payable in future to each officiator no more than which is to be paid on any account.

6. Column 34 of Vernacular Statement No. 1 shews the jodi collectible in future on the lands of each office, and Statement No. 2 shews the amount collectible from each sharer in those office lands.

7. Vernacular Statement No. 1 (column 13) shews existing cash allowances which, it must be most distinctly understood, cease entirely in future, the amounts entered in column 21 of that statement forming the sole and entire remuneration of each officiator.

8. If the District Officers will collect jodi according to Statement No. 1, column 34, and statement No. 2, and will abstain entirely from paying existing cash allowances shewn in column 13 of Statement No. 1 and will pay to officiators the sum entered in Statement No. 1, column 21, no more and no less, they will do all that is required.

9. If a definite name is given to the sum entered in Statement No. 1 (column 21) it may simplify things and obviate misapprehension. I would suggest that the term "Scale Potugi" be made the authorized name and that "Scale Potugi" be the only authorized payment to village officers.

10. I beg that these proposals may take effect in this Taluk in and from the year 1879—80. When these proposals are sanctioned I beg that in accordance with invariable practice the vernacular statements may be forwarded to the Superintendent, Revenue Survey, who will forward them to the Deputy Commissioner of the District and issue to each person concerned a statement of the Scale Potugi he will be entitled to receive.

From the Officiating Superintendent, Mysore Revenue Survey, To the Survey and Settlement Commissioner of Mysore, No. 200, dated Nittur, 28th February 1879.

I have the honor herewith to forward for sanction of the Chief Commissioner of Mysore the marginally noted papers containing the proposals for the final remuneration of village officers of the Channagiri Taluk of the Shimoga District, Nagar Division.

1 Statement of Patel's remuneration.
1 Do do Shanbhogs.
1 Statement of land enjoyed by co sharers (Patels).
1 Do do (Shanbhogs.)
1 Statement of extra allowances to Patels.
1 Abstract Statement in English.

2. Patels' and Shanbhogs' charges as well as the extra allowances to Patels have been fixed in communication with the District Officer.

3. Collections on account of mohatarfa and local cess have been included in the gross revenue on which the scale remuneration is calculated.

4. Information as required by para 2 of Chief Commissioner's order No. 5134—118 of 7th October 1878 is as follows :—

I	Number of villages for which proposals for remuneration are submitted	222
II	Number of Patels fixed	206
III	Number of Shanbhogs fixed	63
IV	Total Revenue Rupees	1,12,646
V	Number of Patels and Shanbhogs to whom the amount mentioned in column 10 of the Abstract Statement in English applies ..	269

5. I beg to suggest that orders may be obtained as to from what year the remuneration in question should be made applicable.

No. 773—R. 7, DATED 29TH APRIL 1879.

ORDER THEREON.—The proposals contained in the above letter from the Survey Commissioner for the permanent remuneration of Patels and Shanbhogs of the Channagiri Taluk, are approved and sanctioned. The permanent remuneration will commence with the official year 1879—80.

2. The value of land inam held hitherto as remuneration is Rs. 2,022—8—0. Henceforth land forms no part of the remuneration, but the additional jodi on the above land, added for the remuneration of the offices to which the land was formerly applicable, yields Rs. 1,388—8—0 towards the money remuneration of the officiators, and the half jodi applied to surplus land emoluments yields Rs. 317—0—0.

3. The total permanent remuneration now sanctioned amounts to rupees 10,426—12—0 and involves a net additional cost to the State over the existing temporary emoluments of Rs. 5,637—2—0.

4. Payment of the remuneration will be made under Rule XIV of the Rules for the remuneration of Patels and Shanbhogs.

5. In a foot-note appended to the vernacular statement it is stated that the number of villages (including 1 inam and 3 kavals) according to Survey reports of the Taluk was 226. But on a reference to the reports themselves it is observed that there are 227 (226 Government and 1 inam) villages in all as shewn in the margin. This discrepancy needs explanation.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 30th April 1879.

READ—

Letter No. 14, dated 4th July last, from the Superintendent of Inam Settlements, requesting instructions as to the preparation of Form No. II for the Shikarpur Taluk in regard to calculating the rate of excess to be allowed to inams in that taluk.

This office docket No. 3093—53, dated 23rd July last, to do., directing reference to be made to the Amildar of Shikarpur for the necessary information, and requesting that the result of the reference be reported to this office.

Letter No. 80, dated 4th December last, from do., reporting that in the accounts of the Shikarpur Taluk for 1836—37 and subsequent years the Sthala Bijavari khandi is calculated at 10 times that of a Krishnaraj khandi, and proposing that these figures be accepted in settling the excess inams of the said taluk.

Proceedings of the Chief Commissioner of Mysore, No. 8317 R.—190, dated 11th January 1879.

Order thereon.—The foregoing papers will be forwarded in original to the Survey and Settlement Commissioner, with a request that he will favor the Chief Commissioner with an expression of his opinion on the subject of Major Cole's proposal.

To—The Survey and Settlement Commissioner.

From the Survey and Inam Commissioner, Mysore, To the Superintendent of Inam Settlements in Mysore, No. 63, dated Poona, 17th January 1879.

With reference to the above, the Inam Superintendent is requested to state if the rating or assessment of each sthala khandi in the same year in one and the same village, in the same kind of land, wet or dry, was not the same, or whether the rate varied on different sthala khandis in the same village in the same year, the land being of the same description, wet or dry.

2. An early report is requested on the above point after examination of the accounts of some villages for different years.

From the Superintendent of Inam Settlements in Mysore, To the Inam Commissioner in Mysore, No. 65, dated Bangalore, 31st January 1879.

In returning the file received with your No. 63 of the 17th instant, I have the honor to submit the result of a further examination of the accounts of the Shikarpur Taluk, and to annex a statement of the rates of assessment for six villages.

2. It will be observed that the rates are high and do not vary in each village. In village No. 3, two low rates of dry assessment are given, which exactly correspond with the wet rates of the village, and in the accounts a remark is noted that the lands had been originally wet, and the wet rates had been evidently retained.

3. In the Beriz Patti of 1836 for the village of Chikkoppanhalli, the following entry exists:—

"The wet shist on a sthala khandi of 1,600 pakka seers is 40 pagodas." This bears out the fact of a sthala khandi being 10 times as large as a Krishnaraj khandi. Moreover, when we look at the high rates of assessment, 40 pagodas for wet lands and 80 pagodas per khandi for dry lands, prevailing per sthala kandi, it is very evident that the sthala khandi must have been of a much larger area than the Krishnaraj.

According to Inam Register and Jari Account of 1855.

Name of the Village.	Case No.	Name of the Inamdar.	Description.	Extent in Krishnaraj. K.	K.	P.	Rate.

=Rs. 2 8 1			
Total Rs. 5 5 6			
2 5 1	Dry	80 0 0	In the Jamabandi Goshvara of 1837, the rate of assessment is given only for the whole village, and not for inam lands separately, but if we calculate the inam assessment with the extent, the same rate as shewn in columns 8 and 9 will be the result.
=Rs. 8 11 8			
	Dry	40 0 0	In this account the wet shist on a sthala khandi of 1,600 pakka seers is 40 pagodas.
	Wet	40 0 0	
	Garden ...	40 0 0	

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 30th April 1879.

Memorandum by the Inam Commissioner of Mysore, No. 191, dated Poona, 22nd February 1879.

The following remarks are forwarded with reference to Chief Commissioner's No 8317—190 of the 11th ultimo and appended correspondence partly received with above order and partly that which has taken place with the Superintendent, Revenue Survey.

2. It appears that all the inams of this taluk, except 50, were settled by Colonel Clerk, Inam Commissioner, on the assumption that the sthala bijavari khandi valuation was capable of being converted uniformly in the proportion of one to ten into Krishnaraj khandis, which are measures of area, an assumption which must be entirely erroneous. The bijavari valuation being one of producing power, a unit being land capable of giving so much produce and therefore an area varying with the quality of the land, that the entries were pure and simple produce rates is shewn by the fact elicited in the letter of the Inam Superintendent No. 65 of 31st ultimo, which shews, in answer to my question on this point, that the rate in each village on the bijavari unit is the same throughout one and the same village, though it varies in different villages, just as in our rating different maximum rates or standards of assessment are applied to different villages. As land is of varying quality, it is evident that a different area must have been taken to represent identical producing power.

3. The only mode of dealing fairly with the bijavari valuation is the proportional system, that is, if an inam is of one bijavari khandi in a village, the total bijavari valuation of which is 10 bijavari khandis, land equal to a corresponding fraction of the gross survey assessment of the village plus 10 per cent is to be considered the equivalent of the inam of one khandi.

4. The mode adopted by Colonel Clerk is clearly erroneous, but it will perhaps be inadvisable now to disturb what he did where it has been carried into effect; but as regards the future the proportionate system as explained in the preceding para should be adopted. That system was after full discussion adopted many years ago for the conversion of all bijavari valuation in the Combay Presidency in the Dharwar Collectorate, of which the ancient bijavari system was identical in every respect with that of Mysore. There need be no fear of evil from having two systems in parts of one and the same district, for the results of the plan Colonel Clerk adopted must be so anomalous as to defy all comparison.

No. 958—Rev. 35, dated Bangalore, 30th April 1879.

Order.—These inams hold an intermediate place between the pure Malnad inams which have not hitherto been located or identifiable on the land, and the Maidan inams for which old records of area exist.

2. The sthala bijavari khandi in Shikarpur is an area of land which can be sown with 1,600 seers of grain. It varies therefore with the quality of the soil and is a measure of value rather than of area, but the land claimed as inam is known and its boundaries and extent can be pointed out; the question whether that land claimed as inam is, or is not in excess of the land comprised in the bijavari valuation can only be determined after ascertaining the equivalent in area.

3. There is only one way of arriving at this. When the land in a given village which is assessed by the Survey is the same or approximately the same as the land specified in the bijavari account of the same village and when there is but one rate per bijavari khandi for the same class of land in the one village, the bijavari valuation of the whole village will bear the same proportion to the survey valuation of that village as the bijavari valuation of the inam does to the survey valuation of the land to be confirmed as inam. To the value of land so determined ten per cent will be added, and inam land assessed at the amount so determined will then be confirmed, any excess over that being charged with full survey assessment.

4. In the remaining inams of the Shikarpur Taluk and in the case of any others similarly circumstanced this method of conversion should be followed, but inams already confirmed in that taluk on a different system will not now be disturbed.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 30th April 1879.

READ—

Proceedings of the Chief Commissioner, dated 8th January 1878, No 8650—196.

From the Inam and Survey Commissioner, Mysore, To the Secretary to the Chief Commissioner of Mysore, No. 1146, dated Poona, 12th October 1878.

With reference to Chief Commissioner's Order No. 8650—196 of the 8th January last, I have the honor to forward Statements marked A and B for the Sorab and Sâgar Malnad Taluks and for the Channagiri and Budihal Maidan Taluks.

2. Statements A shew all Survey numbers in which inam having been allocated : the surplus Government land in any Survey number is of the assessment of Rs. 10 or upwards

3. Statements B shew all Survey numbers in which inams having been allocated, the surplus Government land in any Survey number though less than Rs. 10 is in assessment more than equal to the valuation of the portion of the number confirmed as inam.

4. In the Sâgar Taluk the Survey numbers in these statements are evidently from the assessment very often garden land, supari gardens, &c. It would be almost impossible to break up such garden Survey numbers into two numbers, with any approach to accurate sub-division, and the cutting up such lands into two Survey numbers according to an artificial line of boundary would certainly be very distasteful to the people. It appears to me beyond doubt that the most expedient course in every way will be to leave these numbers as they are ; the inam assessment will be practically a remission of assessment on the entire Survey number, as practically these inams have hitherto been no more than a remission of a portion of the assessment of a warg. The position of these lands will thus remain unchanged in reality though a portion is recorded as inam.

5. The cases in Statement A for Channagiri and Budihal are somewhat numerous for the first taluk, much less so for the last, and the sums payable for the assessment of the Government part are considerable in many cases in proportion to the inam part.

6. In Statement B for Channagiri and Budihal the sums payable to Government are generally very small

7. When the assessment of the Government portion of a Survey number is not more than ½ of the assessment of the confirmed inam portion, I do not think any material harm would be done or future sacrifice of revenue incurred if the whole number was recorded as inam, the assessment of the Government portion being incorporated with the jodi due upon the inam portion. When the assessment of the Government portion is more than equal to ½ of the assessment of the inam portion as confirmed, it would not be expedient in my opinion to include it with the inam, making the assessment due as jodi. This would be placing the land in question under a permanent settlement, as jodi is not subject to revision at any future time. As regards the Government land in the number there would be no difficulty in raising the assessment on any future revision though there may be no actual division of the land in the field ; the assessment could be raised rateably on the existing Survey assessment.

8. It would be a somewhat difficult matter from the dispersed nature of the work to separate off the portions of Survey numbers which are recorded as Government land, the other portion being confirmed as inam, and this in my opinion may be dispensed with as a general practice: some few cases may occur in which it may be necessary to divide off the Government portion ; this the Superintendent of Survey would have done after examination of the Classers' Field Books which will shew how a fair division of the land can be made according to quality on which side of the number the Government portion is to be measured off. We have had the same practice in the Bombay Presidency as regards making portions of Survey numbers inam and portions Government land on inam certificates carried out after the Survey, and in an exceedingly small number of cases has it been necessary to measure off the Government land separately ; as soon as the inamdar learnt that he would not be allowed to select the side of the Survey number to be continued as inam (he would of course, if allowed, select the best land in the number) he as an almost universal rule abandoned his request and retained the whole number paying the assessment due on the Government portion as an "Inam Kasar" or quasi jodi, but not entered as jodi. This is precisely the course laid down to be followed in Precis 17, clause 3, based on Chief Commissioner's order No. 2356—96 of 31st July 1872 and No. 431—38 of the 18th April 1874.

9. It must be noted that it is from no fault of Government that the inamdars have any excess of Government land on which to pay assessment, an additional margin of 10 per cent above their strict right is allowed and it is arranged that the excess shall be as small as possible by the selection of Survey numbers as nearly as possible of the required amount. No arrears of assessment on these excesses are demanded. Thus in every point of view the treatment of the inamdars is marked by extreme leniency. It is therefore not too much to expect that some concession shall be exacted on their side and the payment of the assessment of any Government land which is found included with inam and cannot without extreme inconvenience be separated, is no large demand to make on the inamdars as one condition of the lenient treatment they have met with.

From the Officiating Superintendent, Mysore Revenue Survey, To the Survey and Settlement Commissioner of Mysore, No. 514, dated Bangalore, 18th July 1878.

In accordance with instructions contained in your No. 103 of 30th January last, I have the honor herewith to forward Inam Forms II, together with statements A and B for the two Malnad Taluks of Sorab and Ságar and for the two Maidan Taluks of Budihal and Channagiri, all 4 Taluks belonging to the Nagar Division of this Province.

2. In Statement A are shewn all Survey numbers in which inam having been allocated, there still remains in the number Government land to the value of Rs 10 and upwards.

In Statement B are shewn all numbers in which inam having been allocated, the remaining Government portion though less than Rs. 10 in value is more than double the value of the confirmed inam.

3. In accordance with instructions contained in your No. 188 of 21st February last, vernacular copies of Form II of the two Malnad Taluks of Sorab and Ságar have been forwarded direct to the Deputy Commissioner, Shimoga, and the settlement arrived at has, I understand, been actually introduced into the Sorab Taluk, but that of Ságar is still in abeyance.

4. Inam Forms II of the Maidan Taluks have not yet been forwarded to the Deputy Commissioners of the Districts concerned, and I should feel obliged by instructions as to whether copies should be furnished to them by this Department or not.

5. In Form II of the Ságar Taluk there are several cases entered by the Superintendent of Inam Settlements which, the inamdar and 'wargdar not being the same individual, should properly have been entered in Form III ; remark to this effect has been entered in column 12 of Form II and instructions on these cases will have to be issued by the Superintendent of Inam Settlements.

6. The question of the issue of final title deeds to inamdars by this or the Inam Department referred to in this office No. 86 of 12th February last to your address, is still unsettled ; if they are to be issued by the Inam Department, then these original Forms II should, I presume, be forwarded to the Inam Department, as fast as they are prepared, for ultimate disposal, the vernacular copies only being kept in this office for record. But in any case these settled Forms II should be furnished to the Inam Department for the disposal of cases referred to in the last para, and also that a complete record of the result of the Inam settlement may be made and finally recorded in that office. Instructions on this point are solicited not only with regard to the Forms II of the four taluks now forwarded, but also with regard to those of all other taluks as they may be prepared.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 30th April 1879.

A.—Sorab Taluk.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 30th April 1879.

From the Acting Commissioner, Nagar Division, To the Secretary to the Chief Commissioner of Mysore, General Department, No. 970—Genl. 479, dated Camp Chitaldroog, 24th February 1879.

With reference to your No. 8160—58, dated 9th ultimo, regarding the mode of dealing with excess in inams, I have the honor to forward copy of letter No. 1007, dated 7th instant, from the Deputy Commissioner of Shimoga, and of its enclosures.

2. The only objection to the course proposed by the Deputy Commissioner in para 4 will be that by permanently settling the inam lands in question, Government will have to forgo the right to revise the assessment on the lands on the expiry of the present term of the Survey settlement. I concur with Mr. Narsimmaiengar in considering it to be a matter of importance that these inams should be insured against fluctuations, and that for this end, the right of revising the assessment may, with advantage, be waived.

3. The amount of such inams is small and consequently the prospective increase, if any will be insignificant. The course pointed out has been, moreover, followed, in other taluks, and I do not see any reason why the concessions allowed to inamdars in one taluk should not be allowed to those in others.

4. The original enclosures of your docket are herewith returned.

From the Deputy Commissioner, Shimoga District, To the Commissioner, Nagar Division, No. 1007, dated Shimoga, 7th February 1879.

In retransmitting the original *enclosures of your docket No. 874, dated 16th ultimo, I have the honor to offer the following remarks.

* 1 Letter No. 1146 of 12th October 1878, from Colonel Anderson, to Secretary to the Chief Commissioner.
1 Letter No. 514 of 18th July 1873, from Superintendent, Revenue Survey, to Survey Commissioner, with 8 statements.

2. The Survey and Inam Commissioner proposes that—

(*a*) The position of the inam land having been defined, if the Government portion of the number is less than ½ of the inam value, it should be confirmed as inam with the assessment thereof added to and combined with the quit-rent:

(*b*) And that if the Government portion is more than ½ of the inam value, it should remain separate in the accounts without being demarcated on the ground.

3. In my humble opinion the necessity for an invidious distinction being made between the two classes of cases is not quite clear. As may be prescribed from Statements B, which accompany the Survey and Inam Commissioner's letter, the intrinsic value of the Government portion in the cases therein recorded is small although much more than ½ of the inam portion. It is not considered expedient to send out an establishment to devide the inam from Sarkar, and if the inam land is not quite separated in fact, the permanency of the Inam settlement will hardly be insured against the fluctuations of assessment at the next settlement.

4. Under the rules in force, the Government portion discovered in minor inams was incorporated with the inam portion and the whole confirmed as consolidated inams in the taluks noted in the margin. I am not aware of any reason for a different course being adopted in the case of inamdars in other taluks. Moreover the excess in the cases embraced by the returns accompanying the Survey and Inam Commissioner's letter under reference will not prove as large in the maidan taluks as appears therein, if the conversion of the ancient extent of minor inams into modern equivalents is made under the rules laid down therefor (Precis Nos. 15 and 17) and as required in the Chief Commissioner's order No. 7174—155, dated 2nd November 1877, para 3, as I have had the honor of pointing out to the Superintendent of Survey in my letter No. 1908, dated 23rd ultimo, copy of which is appended for your information. At present the areas therein recorded are obtained by converting into acres the square yards laid down for the Krishnaraj or other standard.

1. Harihar.
2. Davangere.
3. Chitaldroog.
4. Kankuppa.
5. Hiriyur.
6. Hosdurga.

5. On these grounds I think that the course laid down in para 6 of the Chief Commissioner's order No. 416—14, dated 12th April 1877, should be allowed in all cases, irrespective of the relative value of the inam and Government portions.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 30th April 1879.

From the Deputy Commissioner, Shimoga District To the Superintendent, Revenue Survey, No. 1908, dated Camp Channagir., 23rd January 1879.

In reply to your letter No. 1055, dated 31st ultimo, enquiring whether there are any objections to the allocation of inam and assessing the excess thereon found in the Channagiri Taluk as proposed in the accompanying vernacular statement, I have the honor to offer the foregoing observations.

2. The extent proposed to be confirmed as inam is the equivalent in acres and guntas of the number of square yards laid down in the authorized scale for the Krishnaraj bijavari measure, or the local akkadies, plus 10 per cent thereon. Thus an inam of 3 dry kudos would according to the proposed conversion amount to (3,200×3=9,600) 1 acre and 39 guntas, plus 10 or 8 guntas, in all 2 acres and 7 guntas. Any excess over the above is to be fully assessed.

3. I beg to point out that the above procedure is opposed to Land Inam Rule XI by which the inamdar is to be charged only for any excess which may be found "over and above the rate of excess" in the Government lands of the village. The mode of working this rule is laid down in the Inam Commissioner's Proceedings, and also sanctioned by the Chief Commissioner in the Secretary's No. 19—2, dated 3rd April 1872. (*Vide* Precis No 15, paras 2, 3, 4 and 5.)

4. As far as I am aware, these orders are still in force, and the excess in inams in the marginally noted taluks of the Chitaldroog District were dealt with in accordance therewith. In my humble opinion, it is not desirable that any invidious distinction should be made between the inamdars of different taluks in the method of assessing the surplus land found in their occupation. It is moreover hardly necessary to remark that the extent in the jari and other standard accounts was only nominal (Tóra bijavari, in most cases as the Paimayishi of 1806 has proved.

1. Harihar
2. Davangere.
3. Kankuppa.
4. Chitaldroog.
5. Hosdurga.
6. Hiriyur.

5. I beg also to point out that in some of the villages, even the authorized 10 per cent is not granted, *e. g.*, villages Nos. 142, 153, 100 and several others. According to a departmental rule the old extent used to be expressed in the registers and title-deeds in acres and (decimal) fractions thereof, taking as the basis the Krishnaraj or other recognized standard according to the usage of each taluk, till the practice was interdicted by the Chief Commissioner, as per para 1 of Precis 17. But in calculating the area to be confirmed as inam, the old measure was converted according to the procedure specified in para 3.

6. In order to illustrate my remarks, I append a statement comparing the results of the commutation proposed in your statement with those of my reading of the standing orders on the subject.

Takkah Village, Santebennur Magani (Shekdari) as per Survey Superintendent's Settlement.

No.	Inamdar.	Extent given in Inami accounts.			Equivalent at the standard Krishnaraj scale.	Area in acres given in the P. D.	Conversion proposed by the Survey Department.		Ten per cent thereon.		Total Inam area to be allowed.		Remarks.
		K.	K.	P.	Square Yards.	Acres.	A.	G.	A.	G.	A.	G.	
1	Gururayachar, &c. ...	Dry. 0	1	8	4,800	0·99	1	...	...	4	1	4	
2	Subbabhatt, &c. ...	Dry. 0	6	4	20,000	4·13	4	5	...	17	4	22	
							5	5	...	21	5	26	

Takkali Village, as per Precis No. 15, and Land Inam Rule XI.

No. of Inam as on reverse.	Area of Sarkar arable land in the village as per accounts of 1858.		Survey area of arable Sarkar land in the village, 1878—79.		Rate of conversion per kudo.		Equivalent at the rate in previous column of the area in the inamti accounts.		Ten per cent thereon.		Total extent of Inam to be allowed.		Remarks.
	K.	K. P	A.	G.	A.	G.	A.	G.	A.	G.	A.	G.	*N. B.*—
1	...	...	...	...	...	...	Dry. 2	1	...	8	2	9	1. There is no older account shewing whole areas of villages than the one quoted.
2	Dry. 15	3 4½	Dry. 4 10	8	Dry. 1	14	Dry. 8	17	...	34	9	11	2. I do not know whether return No. 1 was or was not prepared for the taluk, as required by Precis No. 17, para I.
							10	18	1	2	11	20	3. But it appears practicable to obtain from the kulavar and other chittas and accounts in the possession of Shanbhogs the total Sarkar area of each village, between 1832—33 and 1856.

No. 937—Rev. 34, dated 30th April 1879.

Order thereon.—The correspondence which led to the passing of Chief Commissioner's order No. 8650—196 of 8th January 1878 referred exclusively to allocation of inam land in the malnad taluks, where no record of area exists, and where even the proportionate conversion of bijavari extent was rendered impossible by there being different rates per khandi for the same class of land in the same village, and no certainty that village limits are now as when the old accounts were made out. It was therefore determined to confirm as much land as is assessed in a sum equivalent to the shist valuation of the inam plus ten per cent.

2. In allocating this land so confirmed it became a question for decision what to do when—as would frequently happen—the area representing the extent of land confirmed was less than the only available survey number in which the inam could be located.

The Survey and Settlement Commissioner proposed to incorporate the part of the field, over and above the extent of inam allocated, in the inam, adding the assessment of this additional area to the jodi payable on the inam, and making the whole field inam, if that additional part of the survey number bore an assessment of less than ten rupees, and he proposed to hold in abeyance and report for orders those cases where the inam confirmed had to be located in a survey number the assessment of which exceeded the assessment of the inam by 10 rupees and over.

3. The Chief Commissioner agreed to these proposals and directed that the results obtained in two malnad taluks be reported as soon as possible.

4. The Chief Commissioner's order however went on to remark that in maidan taluks where the inams were of small value, the residual portion of Government land might be within Rs. 10 in assessment and yet bear so large a proportion to the inam that it would be too great to confirm in perpetuity. The results as regard two maidan taluks were therefore called for also.

5. This mixing up of the inams in the maidan and malnad taluks under a misapprehension has occasioned needless complication.

The Survey and Settlement Commissioner in compliance with the above order now forwards Statements A and B for two maidan as well as two malnad taluks. The Statements A shew the survey numbers in which the surplus Government land, after the allocation of the inam, is of the assessment of Rs. 10 and upwards. The

Statements B contain survey numbers in which the surplus Government land being under Rs. 10 of assessment is more than double the valuation of the portion of the number confirmed as inam.

6. Taking into consideration the large number of these cases in the maidan taluks referred to, the considerable extent of Government surplus land, and the sacrifice of future increase of revenue involved in confirming such excess as inam, Colonel Anderson in modification of his former opinion now proposes to confirm as inam only such excess as may be within half the value of the inam, that is less than one-third of the entire area of the survey number. But where the surplus Government land is greater in extent, he does not propose to charge its assessment as jodi, thereby recognizing it as inam, but as Inam Kasar which would reserve to the Government the right of hereafter enhancing the assessment on such Government portions of the survey numbers.

7. It may be observed that the large excesses shewn in the two maidan taluks above referred to result to a great extent from erroneous system followed in the conversion of the inam areas into modern equivalents as pointed out by the Deputy Commissioner of Shimoga, Mr. Narsimmaiengar, to whose remarks the Chief Commissioner would invite the attention of the Settlement Officers. But whatever the extent of excess ultimately arrived at, where, as in all the maidan taluks, definite pieces of land have been hitherto held and enjoyed as inam, there is no reason to deviate from the practice hitherto followed of confirming the whole of such land as inam, charging the assessment of any unauthorized excess found on it as jodi; the only exception being in the case of recent and fraudulent appropriation of land, clearly the property of the Government.

8. The inams in the malnad taluks on the other hand were not generally grants of land, but simply assignments or remissions of a certain amount of the revenue or shist. There is therefore in these cases no definite spot of land already known as the inam, but the inam has now to be newly allocated, *i. e.*, land has to be newly assigned equivalent to the shist value of the inam for the convenience of the Government as well as for that of the inamdars. If, then, land be thus newly assigned as inam, moderate excesses in such survey numbers can also unobjectionably be confirmed as inam subject to a jodi, in order to avoid the needless sub-division of survey numbers, and to secure a final settlement of the inams free from future interference.

Such alienation of Government land in inam would be undesirable only where it is extensive, and this as much in the interest of the inamdar as in that of the Government. The inamdar may fairly complain of being in such case burdened with an unduly large amount of jodi, especially in the case of the heavy garden assessments of the Ságar Taluk.

9. The Chief Commissioner sees no reason on the whole to recall the sanction already given on the recommendation of the Survey Commissioner, for treating as inam surplus Government land bearing an assessment of less than ten rupees, contained in survey numbers assigned as inam, charging its assessment as jodi. An exception may have to be made when the Government portion of the survey numbers though less than Rs. 10 in assessment, is unduly large in comparison with the inam portion, say more than double the latter. In these cases the additional jodi becomes too large relatively to the original value of the inam. For the two malnad taluks these cases, as shewn in Statement B, are so few in number that no exception need be made in regard to them.

10. Under these instructions the thirty-four cases in Statement A of the Ságar Taluk, and the nineteen cases in Statement A. of the Sorab Taluk, where the surplus Government land exceeds ten rupees in assessment, would alone require to be specially considered. In the case of survey numbers which cannot be conveniently divided, the excess or Government portion will be charged with its full assessment paid as Inam Kasar.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 30th April 1879.

11. The Chief Commissioner will be glad if the Survey Commissioner and Superintendent of Inams will report how it is proposed to deal with inams the holders of which are not the 'Vargdars' and have no lands which can be assigned to them in inam. If any have been confirmed by the Inam Department in land, the mistake will have to be rectified and a cash payment made.

W. J. CUNINGHAM,
Offg. Secretary.

To—The Survey and Settlement Commissioner.
„ Commissioner, Nagar Division.
„ Superintendent of Inam Settlements.
„ Superintendent, Revenue Survey.
„ Deputy Commissioner, Shimoga.
Other Commissioners and Dy. Commissioners for information.

Offg. Secretary.

To—The Deputy Accountant General.
„ Deputy Commissioners of Districts.
„ Commissioners of Divisions.

Proceedings of the Chief Commissioner of Mysore, Financial Department, 22nd April 1879.

READ—

Letter from the Judicial Commissioner of Mysore, No. 143—11, dated 7th April 1879, submitting copy of certain correspondence on the subject, and recommending that advances as proposed may be made to the Amildars in the Ashtagram and Nagar Divisions, to meet the expenses of dieting prisoners, under-trial or convicted in lock-ups, and also the expenses of dieting prisoners when under the custody of the Police escorting them to the Magistrates' Courts.

No. 637—FINL. 21. DATED 22ND APRIL 1879.

ORDER THEREON.—The Chief Commissioner is pleased to sanction the following rates of advance for the Taluks of the Ashtagram and Nagar Divisions to provide for dieting prisoners whether convicted, under-trial or in police custody:—

ASHTAGRAM DIVISION.

Mysore District.

Mandya, Húnsúr, Nanjangúd	each Rs. 50
Chamrajnagar, Gundlupet, Heggaddevankote, Yedatore, Ashtagram	each Rs. 35.
Narsipur, Mysore, Maddur	each Rs. 25.

Hassan District.

Attikuppa, Manjarabad, Channaraypatna	each Rs. 50.
Hassan, Arkalgúd, Narasipur	each Rs. 35.
Belur, Nagamangala, Harnhalli	each Rs. 25.

NAGAR DIVISION.

Shimoga District.

Channagiri	Rs. 50.
Shikarpur	„ 40.
Shimoga, Honnali, Sorab	each Rs. 30.
Ságar, Nagar, Kavaledurga	each Rs. 20.

Kadur District.

Banavar	Rs. 45.
Tarikere	„ 40.
Chikmagalur	„ 35.
Lakvalli, Koppa	each Rs. 25
Múdgere	Rs. 20.

Chitaldroog District.

Davangere	Rs. 40.
Pavagada	„ 40.
Dodéri	„ 35.
Hiriyur, Kanakuppa, Hosdurga, Budihal	each Rs. 25.
Chitaldroog	Rs. 15.

2. Deputy Commissioners of Districts are authorized to apportion sub-imprests to Inspectors of Police.

W. J. CUNINGHAM,
Offg. Secretary.

„ Deputy Commissioners of Districts.
„ Inspector General of Police.
„ Deputy Accountant General.

Proceedings of the Chief Commissioner of Mysore, Financial Department, 30th April 1879.

From the Military Assistant to the Chief Commissioner of Mysore, To the Secretary to the Chief Commissioner of Mysore, General Department, No. 1346—Military 165, dated Bangalore, 31st March 1879.

I have the honor to report on the reductions of the Military Guards in the Mysore Province, which have been carried out in consultation with the District Officers concerned in accordance with the instructions contained in the Chief Commissioner's Minute of the 18th November last.

HEAD-QUARTERS, BANGALORE.

Government House.

2. The guard over Government House has been reduced from 2 Havildars, 2 Naigues and 15 Sepoys, to 1 Havildar. 2 Naigues and 9 Sepoys.

Chief Commissioner's and Printing Offices.

3. In accordance with instructions received, the guards over these offices consisting of 1 Naigue and 3 Sepoys each, have been entirely withdrawn.

Military Assistant's Office.

4. The guard over this office being very small, comprising only 1 Naigue and 3 Sepoys, will not admit of any reduction.

Military Stores.

5. Owing to the large quantity of Government stores kept in this building it does not appear advisable to reduce the strength of this guard which consists of 1 Havildar, 1 Naigue and 6 Sepoys.

Central Jail.

6. The former strength of this guard, *viz.*, 4 Commissioned Officers, 10 Havildars, 9 Naigues, and 57 Sepoys, has been retained agreeably to para 3 of the Chief Commissioner's Minute dated 18th November 1878.

7. The total reductions in the several departments at Head Quarters are as follows :—

1 Havildar.
2 Naigues.
12 Sepoys.

NUNDYDROOG DIVISION.

Executive Engineers' Offices and Munsiffs' Courts.

8. Arrangements having been made for the safe custody of cash, &c., in these Establishments the entire guards consisting of 5 Naigues and 15 Sepoys were withdrawn.

District Jails.

9. The guard over the Kolar District Jail has been reduced from 2 Commissioned Officers, 7 Havildars, 7 Naigues and 42 Sepoys, to 1 Commissioned Officer 5 Havildars, 5 Naigues and 30 Sepoys. No further reduction could be made in this guard owing to the large number of prisoners, the majority of whom are confined in insecure buildings outside the permanent jail, and for guarding whom a less guard would be insufficient. The District Jail guard at Túmkúr has been reduced from 1 Commissioned Officer, 3 Havildars, 3 Naigues and 18 Sepoys, to 1 Commissioned Officer, 1 Havildar, 2 Naigues and 9 Sepoys.

10. The guard over the Subsidiary Jail at Bangalore has been reduced from 2 Havildars, 2 Naigues and 12 Sepoys, to 1 Havildar, 1 Naigue, and 6 Sepoys, and this the Deputy Commissioner, Bangalore District, is of opinion can eventually be withdrawn when replaced by armed Police.

District Treasuries.

11. The guards over the 3 District Treasuries in the Nundydroog Division have been reduced from 3 Commissioned Officers, 6 Havildars, 7 Naigues and 39 Sepoys, to 3 Havildars, 3 Naigues and 18 Sepoys, which the District Officers consider sufficient for guarding the 3 District Treasuries.

Taluk Treasuries.

12. The guards over the Taluk Treasuries at the Head-Quarters of the 3 Districts have been withdrawn, as also those at Closepet, Nelamangala and Devanhalli, where the Deputy Commissioner, Bangalore District, considers any special Military guard unnecessary, owing to the Treasury, Lock-up and Police stations being located in the same building.

13. The guard over the Gumnayakanpalya Taluk Treasury has been reduced from 1 Havildar 1 Naigue and 8 Sepoys, to 1 Havildar, 1 Naigue and 6 Sepoys and those over the other 20 Taluk Treasuries in the 3 Districts have been reduced from 1 Havildar, 1 Naigue and 6 Sepoys to 1 Naigue and 3 Sepoys each.

14. The total strength of guards reduced in the Nundydroog Division is as follows :—

4 Commissioned Officers.
34 Havildars.
20 Naigues.
164 Sepoys.

15. The strength of the guards over the Jails at Mysore and Kukarhalli comprising 2 Commissioned Officers, 8 Havildars, 6 Naigues, 2 Drummers and 44 Sepoys, has not been reduced. It is probable that the guard over the Kukarhalli Jail will yet have to be supplemented. The guard over the District Jail at Hassan has been reduced from 1 Havildar, 2 Naigues and 12 Sepoys, to 1 Havildar, 1 Naigue and 6 Sepoys

ASHTAGRAM DIVISION.

District Jails.

16. The only reductions in the jail guards in the Ashtagram Division are those which have been carried out in the Hassan District comprising 1 Naigue and 6 Sepoys.

17. The former strength of the guards over these Establishments consisting in all of 4 Havildars, 4 Naigues and 24 Sepoys has been retained, pending the orders of the Local Government applied for in letter No. 1239—z, dated 7th March 1879, to the Secretary to the Chief Commissioner.

Mysore Residency Bungalow.
Yelwal Bungalow.
Chamrajnagar Devasthan.

18. The guards over the District Treasuries in Mysore and Hassan have been reduced from 2 Commissioned Officers, 3 Havildars, 3 Naigues, 1 Drummer and 24 Sepoys, to 2 Havildars, 2 Naigues and 12 Sepoys.

District Treasuries.

19. The guards over 11 Taluk Treasuries in the Ashtagram Division have each been reduced from 1 Havildar, 1 Naigue and 6 Sepoys, to 1 Naigue and 3 Sepoys, with the exception of those over Channarayapatna and Manjanabad in the Hassan District and Seringapatam and Heggaddevankote in the Mysore District, where the Deputy Commissioners are of opinion that a full guard consisting of 1 Havildar, 1 Naigue and 6 Sepoys is necessary.

Taluk Treasuries.

20. The guard over the Harnhalli Taluk Treasury shewn in statement forwarded under cover of letter to Secretary No. 1239—z, dated 7th March 1879, as having been reduced from 1 Havildar, 1 Naigue and 8 Sepoys, to 1 Naigue and 3 Sepoys, was subsequently, on a report received from the Deputy Commissioner, Hassan District, regarding the insecure state of the building in which the Treasury is located, increased to its former strength.

21. The Arkalgúd and Attikuppa Treasury guards have each been reduced from 1 Havildar, 1 Naigue and 8 Sepoys, to 1 Naigue and 3 Sepoys, and the guards over the Hassan, Bandipur, and Nanjangúd Taluk Treasuries, each consisting of 1 Havildar, 1 Naigue and 6 Sepoys, have been withdrawn.

22. The Local Government has been addressed regarding the Sivasamudram Jahagirdar's Treasury, pending a reply to which the former guard comprising 1 Havildar, 1 Naigue and 6 Sepoys has been retained.

23. The total reduction of Military guards in the Ashtagram Division is as follows :—

2	Commissioned Officers.
17	Havildars.
4	Naigues.
1	Drummer.
80	Sepoys.

24. The guard over the District Jail at Shimoga has been reduced from 2 Commissioned Officers, 7 Havildars, 7 Naigues, 1 Drummer and 42 Sepoys, to 1 Commissioned Officer, 6 Havildars, 6 Naigues, 1 Drummer and 36 Sepoys : that over the Kadur District Jail consisting of 1 Commissioned Officer, 4 Havildars, 4 Naigues and 24 Sepoys has been increased by 1 Drummer.

NAGAR DIVISION.

District Jail.

25. The insecurity of the building now occupied as the District Jail in the Chitaldroog District renders it impossible to reduce the strength of that guard which consists at present of 2 Havildars, 2 Naigues and 12 Sepoys.

26. The night guard over the Shimoga Jail has been entirely withdrawn, thus shewing a reduction of 7 Havildars, 8 Naigues and 45 Sepoys under this head.

Night Guard, Shimoga.

27. The guards over the Shimoga and Chitaldroog District Treasuries have each been reduced from 1 Commissioned Officer, 3 Havildars, 3 Naigues, 1 Drummer and 18 Sepoys, to 1 Havildar, 1 Naigue and 6 Sepoys.

District Treasuries

28. The Kadur District Treasury guard being equal to the present reduced strength of the guards over the other District Treasuries, has been retained.

29. The night guard over this Treasury has been withdrawn, thus shewing a reduction of 1 Naigue and 3 Sepoys under this head.

Kadur District Treasury night guard.

30. In the Shimoga District the Sorab Taluk guard has been reduced from 1 Havildar, 1 Naigue and 8 Sepoys, to 1 Havildar, 1 Naigue and 6 Sepoys, and that over the Kavaledurga Taluk Treasury, from 2 Havildars, 2 Naigues and 12 Sepoys, to 1 Naigue and 3 Sepoys. The Ságar and Channegiri Taluk guards have been reduced from 1 Havildar, 1 Naigue and 8 Sepoys, to 1 Naigue and 3 Sepoys; and the remaining 4 Taluk Treasury guards from 1 Havildar, 1 Naigue and 6 Sepoys, to 1 Naigue and 3 Sepoys each.

Taluk Treasuries.

31. In the Kadur District the guard over the Chikmagalur Taluk Treasury has been withdrawn; the guards over the Koppa and Lakvalli Taluk Treasuries have each been reduced from 1 Havildar, 1 Naigue and 8 Sepoys, to 1 Naigue and 3 Sepoys. The remaining 3 Taluk Treasury guards have been reduced from 1 Havildar, 1 Naigue and 6 Sepoys, to 1 Naigue and 3 Sepoys each.

32. In the Chitaldroog District the guard attached to the Pavagada Taluk Treasury, *viz.*,1 Havildar, 1 Naigue and 6 Sepoys, has been retained owing to Pavagada being situated on the frontier. The guards over Kankuppa and Davangere have each been reduced from 1 Havildar, 1 Naigue and 8 Sepoys, to 1 Naigue and 3 Sepoys; and those over the remaining 5 Taluk Treasuries have been reduced from 1 Havildar, 1 Naigue and 6 Sepoys, to 1 Naigue and 3 Sepoys each.

33. The total reduction effected in Military guards in the Nagar Division is as follows:—

3	Commissioned Officers.
33	Havildars.
16	Naigues.
1	Drummer.
161	Sepoys.

34. The total reductions carried out in the Barr Guards at Head-Quarters and in the three Divisions of the Mysore Province are as follows:—

9	Commissioned Officers.
85	Havildars.
42	Naigues.
2	Drummers.
417	Sepoys.

35. I now beg to annex a statement shewing the result of the reduction of the 4th Regiment of Barr, and the manner in which the men and officers composing it have been disposed of.

36. From this statement it will be seen that there are still 1 Adjutant, 1 Havildar-Major, 32 Havildars, 38 Naigues, 109 Sepoys, 6 Drummers, 4 Fifers, 5 Pakalis, 9 Washermen, 3 Writers, 1 Jakamband or Native Doctor, 1 Orderly, 4 Lascars, 1 Chuckler, 1 Carpenter, 1 Smith and 1 Armourer on the strength of the Regiment, all of whom will be borne as supernumeraries from the 1st proximo, from which date I propose to finally break up the 4th Battalion, and the remaining Sepoys who still refuse to join the Police will be discharged under the orders of the Chief Commissioner.

37. I now request the orders of the Chief Commissioner as to the disposal of the Non-Commissioned Officers mentioned in the above para.

38. In the correspondence which accompanied your docket No. 11482—883 of the 12th instant, it appears that the Chief Commissioner has recommended and the Government of India sanctioned a grant of gratuity to all unfit men over 20 and under 30 years' service, of 3 months' pay for every 5 years' service, till a maximum is reached of 12 months' pay; but I do not think this scheme will have the desired effect, nor do I think the gratuity, the maximum of which is 12 months' pay, sufficient for a man who has served the Government for upwards of 20 years. Moreover I am afraid the number is much overrated, for I do not think there would be found more than 25 men between 20 and 30 years' service who could be declared unfit for further service.

39. I consider a much more feasible way, and certainly one calculated to create less discontent would be to offer gratuities of a month's pay for every year's service to a limited number of Non-Commissioned Officers over 20 years' service in accordance with the number of supernumeraries.

40. For instance there will be on the 1st April next 32 Havildars and 38 Naigues, supernumeraries of the 4th Battalion. An offer to the 1st and 2nd Battalions would most probably produce the required number willing to leave on gratuity.

41. Taking the average service of the men offering at 25 years, it would give to each man a gratuity of Rs. 275 which, supposing 32 men availed themselves of it, would entail an expenditure of Rs. 8,800.

42. I would offer this to the old Non-Commissioned Officers only, transferring the men of the 4th Battalion, who are mostly young men, to fill their places in the two 1st Class Battalions, and it would of course not be open to the Sepoys who have refused the offer of service in the Police.

43. I also request the orders of the Chief Commissioner as to whether the individuals as per margin may be discharged on gratuity, or absorbed on vacancies hereafter occurring.

6	Drummers.
4	Fifers.
5	Pakalis.
9	Washermen.
3	Writers.
1	Jakambund.
1	Orderly.
4	Loscars.
1	Chuckler.
1	Carpenter.
1	Smith.
1	Armourer.

44. The reduction of this Regiment has been effected with considerable difficulty in consequence of the very great disinclination of the men to join the Police Force.

45. No further reduction can be effected without the withdrawal of all guards from Taluk and District Treasuries, and even supposing it possible for the Police to take these duties, I trust on other grounds that there may be no further reduction.

46. A statement of the reduction in the Military expenditure is enclosed. This however does not represent a total saving to the State of that amount, for I am given to understand that in the Judicial Department peons are entertained to guard prisoners in lieu of the Barr guards to jails, which have been reduced, and in the Public Works Department to guard the Executive Engineers' cash chests hitherto taken by the Barr.

Statement shewing how the Men of the Barr Force have been disposed of up to the 23rd March 1879 and the Number of Supernumeraries of the 4th Regiment on the Roll on the above date.

Proceedings of the Chief Commissioner of Mysore, Financial Department, 30th April 1879.

No. 885—Finl. 2, dated 30th April 1879.

Order thereon.—The arrangements proposed for reducing the Military guards of the Province, under which the 4th Regiment of Barr will be disbanded, are satisfactory, and will, it is calculated, result in an annual saving of Rs. 61,000.

2. The future strengths of the different guards have been determined by the Military Assistant in consultation with District Officers with great care and after mature deliberation, and the Chief Commissioner is prepared to accept the conclusions arrived at. It is open to doubt, however, whether a guard of 1 Naigue and 3 Sepoys will prove sufficient for outlying taluks in unhealthy localities. The Chief Commissioner does not wish to disturb the arrangements arrived at by the Military Assistant, but there will in all probability be some men available for strengthening these taluk guards if it is found expedient to do so, upon the reduction of the Kolar Jail guard to the strength fixed for the Túmkúr Jail. This reduction could be effected if arrangements were made to reduce the number of convicts in Kolar to that which the permanent jail building can accommodate by transferring the requisite number to the Central jail at Bangalore. The Inspector General of Jails is requested to carry this out as soon as it is feasible to do so in communication with the Superintendent of the Central jail.

3. Ere long the jail guard at Kadur will probably admit of reduction, and the question of abolishing the guards at Yelwal, the Mysore Residency and Sivasamudram will shortly be disposed of; from these sources also there will therefore in all probability be obtained a number of men whose services can be utilized in strengthening the outlying taluk guards, if the Chief Commissioner's anticipation as to their being unduly diminished should upon experience be found correct.

4. The Chief Commissioner recognizes the propriety of Colonel Stewart's suggestion to offer the higher gratuity of one month's pay for every year's service to 32 Havildars and 38 Naigues between 20 and 30 years' service, in order to create vacancies for that number of such Non-Commissioned Officers of the 4th Battalion. The expenditure to be thus incurred is but a deduction from gross savings effected, and a special recommendation of this measure will be made to the Government of India. Colonel Stewart may in the meantime make the offer of these gratuities and ascertain whether the inducement will have the effect of retiring the requisite number.

5. The miscellaneous employés mentioned in para 43 may be discharged on gratuity; and of the 109 supernumerary sepoys there will be found employment for about 30 or 40 in the Palace Regiment of Barr. The remainder should find employment in the Police, if employment is offered, but men refuse it, there is no course open but to discharge them; though this is an eventuality the Chief Commissioner wishes to avoid as much as possible.

6. Colonel Stewart observes that in some cases peons are entertained to supply the place of the Barr guards which have been reduced. To do this is to defeat the ends for which the reductions are being made: the Chief Commissioner believes that the reductions effected have been made only in instances where it is unnecessary to supply the places of the men withdrawn and no additions to the Police and other establishments of peons are necessary. No such additions are authorized, nor can they be allowed without previous sanction of the Chief Commissioner. Applications for sanction, moreover, will not be recognized, unless supported by the strongest grounds.

Proceedings of the Chief Commissioner of Mysore, Financial Department, 30th April 1879.

READ—

Letter No. 1330—424, dated 26th March 1879, from the Military Assistant, submitting the present and proposed Schedules of Establishment of his Office.

No. 913—33, DATED BANGALORE, 30TH APRIL 1879.

ORDER THEREON.—The proposals of the Military Assistant are approved generally, but the nomination made to the post of Manager may be deferred. It may be necessary in the present very exceptional condition of establishments in the Province for the Chief Commissioner to appoint another than the officer selected by the Military Assistant to that post.

2. In the case of three appointments, those of Manager, Head Accountant and Superintendent, Store Department, the Military Assistant proposes annual increments of Rs. 10 up to fixed maximum, but Mr. Gordon prefers under existing circumstances to fix the salaries at once at Rs. 250, 120 and 100 respectively. These salaries would seem to be sufficient and suitable, and the incumbents should be left to take their chance of promotion elsewhere if deserving of it, or to receive special increase in special cases. A system of annual promotion by fixed instalments does not meet with Mr. Gordon's approval.

3. The following statement gives the present establishment of the Military Assistant's Office and the future establishment as now provisionally sanctioned :—

Assistant Secretary.

To—The Commissioners of Divisions.
„ Deputy Commissioners of Districts.
„ Secretary, P. W. D.
„ Examiner, P. W. A.
„ Deputy Accountant General

Proceedings of the Chief Commissioner of Mysore, General Department,
14th April 1879.

READ—

Nundydroog Division Commissioner's letter No. 534, dated 19th March 1879, on the subject of disposing of the Experimental Farm, Bangalore.

No. 278—GENL. 3, DATED 14TH APRIL 1879.

ORDER.—It is obvious that before the Experimental Farm lands can be advantageously disposed of either by sale or lease, it is necessary to settle once and for all the question of the proper kodi level of the Sonakal tank; at present that level is so high that much of the farm-land is subjected to inundation.

2. The Chief Commissioner desires therefore that the Officiating Commissioner will at once place himself in communication with the Chief Engineer, and that these officers visit the spot in company with the Deputy Commissioner of the Bangalore District and determine whether the waste weir level of the Sonakal tank cannot be lowered, sufficiently to obviate flooding the land of the Farm above it, without detriment to the cultivation carried on below, or if one or other must suffer, whether it would not be better to lower the level and compensate the occupants of the irrigated land below for their decreased water supply.

3. As soon as a decision is arrived at upon this matter, the Farm should be advertized for sale *en bloc*, the date being fixed on the earliest day practicable with regard to giving due notice of and publicity to the intention to sell. In any case the date of sale cannot be later than the end of May, and if the Farm cannot be disposed of by sale by that date, the Chief Commissioner will be willing to lease it.

4. The Farm and the buildings on the Farm will be put up in one lot, the implements will be sold separately, and an upset price representing the full value of the land should be placed upon the Farm, as the reserved price, under which it will not be sold. The land both in quality and situation is no doubt of value and will increase in value, and it should not therefore be sacrificed.

5. In the event of the Farm being sold, the disposal of the house now occupied by the Superintendent will be next considered.

6. The Chief Commissioner cannot accede to the offer made by the Roman Catholic Mission which the Officiating Commissioner forwards in the above letter.

W. J. CUNINGHAM,
Offg. Secretary.

To—The Commissioner, Nundydroog.
„ Chief Engineer.
„ Superintendent, Experimental Farm.
„ Dy. Commissioner, Bangalore.

Proceedings of the Chief Commissioner of Mysore, General Department, 18th April 1879.

MUNICIPAL.

READ again—

Chief Commissioner's Proceedings No 2327—R. 40, dated 8th June 1876, assigning the revenue derivable on certain lands to the Bangalore Cantonment and Town Municipal Commissions on the conditions specified.

READ—

Letter from President, Cantonment Municipal Commission, No. 2267, dated 10th January 1879, soliciting instructions as to the disposal of the balance of money available for charity accruing from lands within Municipal limits.

READ—

Proceedings of the Chief Commissioner No. 4106—367, dated 13th March 1879, in reply to the above.

READ—

Letter from Commissioner, Nundydroog Division, No 387, dated 28th March 1879, forwarding in continuation of his office No. 242, dated 5th November last, a letter from the Deputy Commissioner, Bangalore, on the subject of the falling off noticed in the revenue for 1876—77 on occupied lands assigned to the Municipality and affording an estimate of the revenue thus assigned.

READ—

Letter from President, Cantonment Municipal Commission, No. 55, dated 5th April 1879, soliciting that the Municipal funds be credited with the amount as estimated in 1876 irrespective of the falling off in actual realization.

No. 236-38—MUNL. 14, DATED CAMP OOTACAMUND, 18TH APRIL 1879.

ORDER THEREON.—If the Chief Commissioner adhered to the terms of order No. 2327—R. 40, dated 8th June 1876, the Town and Cantonment Municipalities would each have to assign Rs. 2,500 from the realizations on assessed lands made over to them irrespective of the amount of those realizations. The revenue thus assigned was estimated at Rs. 11,938—0—0, but not guaranteed at any figure. Owing to the actuals having fallen so far short of the estimate the Chief Commissioner has relaxed the order and directed in Proceedings No. 4106—367, dated 13th March 1879, that for the two years 1876—77 and 1877—78 each Municipality should assign Rs. 2,915 only—instead of Rs. 5,000—being half the actual income. There is no reason to reconsider this decision.

2. The Deputy Commissioner of the Bangalore District has recently with letter No. 1309, dated 7th March 1879, to the Commissioner, Nundydroog Division, supplied an estimate of the assigned revenue which places it at Rs. 7,611—9—0, half of which goes to each Municipality. Accepting this estimate the Chief Commissioner directs that for the year 1878—79 and until further orders the sum to be set apart by each Municipality for a charitable purpose, shall be (in place of Rs. 2,500 as ordered in No. 2327—R. 40, dated 8th June 1876) Rs. 1,900—0—0.

W. J. CUNINGHAM,
Offg. Secretary.

To—The President, Municipal Commissions, Cantonment and Town of Bangalore.
" Commissioner, Nundydroog Division.
" Dy. Accountant General.

Proceedings of the Chief Commissioner of Mysore, General Department, 22nd April 1879.

No. 599—Genl. 12, dated 22nd April 1879.

Circular Order.—The Chief Commissioner has observed that officers when submitting a question for the orders of the Chief Commissioner, very commonly forward communications from their subordinates, merely alluding in the forwarding letter or docket to the subject matter of them, sometimes of several such enclosures, without recapitulating or condensing the subject. This style of correspondence entails much needless copying work in the office from which the reference is sent and involves also unnecessary reading and reference in the Chief Commissioner's Office when the correspondence is received.

2. Mr. Gordon desires that this practice may be discontinued and that when an officer makes a reference for orders, embodying the result of more or less correspondence with the officers under him, the whole matter may be placed before him in one succinct statement in the form of a letter or docket to the Secretary.

3. There are instances of course when it is expedient, or perhaps necessary, to forward in original or in copy a communication received, and it must be left to each officer to determine when this is necessary; as a general rule however it is quite sufficient and much more convenient to state the purport or result of correspondence in the letter to the Secretary.

Proceedings of the Chief Commissioner of Mysore, General Department, 23rd April 1879.

ORDER No. 8 G., DATED CAMP OOTACAMUND, THE 23RD APRIL 1879.

As the office of Controller at the Palace, Mysore, will very shortly be vacated by the employment elsewhere of Mr. C. Rangacharlu, C. I. E., the Chief Commissioner resolves to make the following arrangements.

2. As Palace affairs have now been placed in order, as the experience of the Controller Mr. Rangacharlu will still be available, and as the altered arrangements which will shortly be necessary may require the direct consideration of the Chief Commissioner, Mr. Gordon does not consider it necessary or desirable to retain the office of Controller on its present pay and position.

3. Apart from financial and other considerations, there is at present much difficulty in finding for that office a man of the requisite qualifications and status, owing to the pressing demand for such men to fill responsible posts in the General Administration.

4. The Chief Commissioner, therefore, deems it advisable to depute one of the Assistant Commissioners in the lower grades for the direct charge of the Palace Treasury and Establishments and for the conduct of the ordinary duties of the Palace Household.

5. This officer will generally be under the orders of the Commissioner of the Division whose advice and instructions should be obtained upon all matters of importance.

6. For the sake of public convenience and the avoidance of delay he will conduct the ordinary correspondence and will render the usual accounts to the higher officers concerned direct as heretofore. He is authorized to incur all sanctioned expenditure, and upon his own authority to incur any new charge not exceeding Rs. 100 subject of course to Budget limits.

Charges exceeding Rs. 100 and within Rs. 500 may be incurred under the sanction of the Commissioner of the Division. Charges exceeding Rs. 500 should have the previous sanction of the Chief Commissioner except in very urgent cases.

7. The keys of the Palace Jewellery-room will be with the Commissioner, who should be present when jewellery has to be taken out for use, or put back into the room. No jewellery will be given away or otherwise disposed of without the Chief Commissioner's previous sanction.

8. The keys of the other departments of the Palace will be with the Assistant Commissioner in charge of the Palace Household.

9. The expenditure of cloths from the Palace store for Palace purposes will be subject to the limits and rules above laid down in regard to expenditure of money. A record should be regularly kept of all cloths expended from the store from time to time.

10. In view to the general reduction and revision of establishments about to be made, no vacancy on an appointment of Rs. 10 per mensem or more should be filled up without sanction. Such sanction may be best applied for by the submission of monthly lists shewing the vacancies and the proposed appointments.

11. In filling up the lower appointments under Rs. 10, the Assistant Commissioner should be very careful to observe the customs of the Palace, avoiding the introduction of strangers except for specified good reasons.

12. The directions for the management of the Palace stables will be given by the Commissioner to the officer in charge of that department.

W. J. CUNINGHAM,
Offg. Secretary.

To—The Commissioner of the Ashtagram Division.
Mr. C. Rangacharlu, C. I. E.
The Deputy Accountant General.

Proceedings of the Chief Commissioner of Mysore, General Department, 29th April 1879.

READ.—

Docket from the Offg. Commissioner, Nagar Division, No. 24—11, dated 8th April 1879, submitting for orders a letter from the Deputy Commissioner, Chitaldroog District, with its two enclosures, regarding the objection taken by the Amildar of Davangere Taluk to his being addressed by orders by the Superintendent, Revenue Survey.

No. 814—GENL. 14, DATED BANGALORE, 29TH APRIL 1879.

ORDER.—As in the case of the Superintendent, Inam Settlements, so in that of the Superintendent, Revenue Survey, every Amildar in the Province is subordinate to him in respect to work appertaining to the Department, and every Assistant Superintendent conducting survey operations in any taluk, is the official superior of the Amildar of that taluk.

PROCEEDINGS OF THE CHIEF COMMISSIONER OF MYSORE FOR THE MONTH OF APRIL 1879.

1	2	3	4	5	6
Index Nos. of the Progs.	Subject.	Nos. and Dates of Proceedings.	Date of Report to the Secretary of State for India.	Nos. and Dates of previous Proceedings.	Page.
1 to 2	*Final Examination.* Orders on the results of the final examination of the students of the 1st Class, lower division of the School of Engineering and Natural Science.	No. 93—1, dated 5th April 1879.	...	...	1 to 2

Proceedings of the Chief Commissioner of Mysore, Educational Department, 5th April 1879.

From the Director of Public Instruction, Mysore and Coorg, To the Secretary to the Chief Commissioner of Mysore, No. 3336, dated Bangalore, 18th March 1879.

Referring to Chief Commissioner's Order No. 6997—1001 of the 23rd November last, I have the honor to submit for the Chief Commissioner's orders the results of the final examination of the students of the 1st class, Lower Division of the School of Engineering and Natural Science.

Report of Committee appointed in Chief Commissioner's Order No. 6997—1001 of the 23rd November 1878, for the final examination of the Students of the Upper Subordinates' Class, School of Engineering and Natural Science, Bangalore.

1. The number of students presented for examination was 5, of whom 3 were candidates for the Department Public Works and 2 for the Forest Department. Owing to one of the former (Kadirvelu) being attacked with chicken-pox on the eve of the examination, as certified by the medical authorities, the date of the examination was postponed to the 10th of February to allow of his appearing.

2. The question papers, of which copies are attached, were obligingly set by the following Examiners:—

Geometry	Mr. A. G. King, B A
Algebra	,, Krishnasami Iyer, B. A.
Trigonometry	,, Malhari Rao, B A.
Applied Mechanics, Hydrostatics	,, C. Waters, M. A.
Hydraulics	,, E R. Subba Rayar, B. A, B C. E.
Mechanics, Drawing	,, W. P. Lyman, C E.
Engineering	Captain C. Bowen, R. E.
Construction	
Materials	
Surveying	
Estimating	
Botany	Mr D. E. Hutchins.

3. The detailed results, as exhibited in the number of marks gained by each candidate, are contained in the accompanying list, from which it will be seen that out of a maximum of 1,050 marks the 5 candidates have gained as follows:—

1. C. Kadirvelu	577	Public Works.
2. M. Srinivas Rao	474	Forests.
3. V. S. Armugam	408½	Public Works.
4 B. Raghunath Aiyangar	388½	Forests.
5. K. Ananda Rao	349½	Public Works.

One has thus gained over a half the maximum marks, and three others over one-third. These results do not come up to those of the corresponding examination of 1877 (see Chief Commissioner's Proceedings of 4th July 1877). In individual subjects, Armugam has failed in Surveying and Levelling; Raghunath Aiyangar in that and in Mensuration and Estimating; while Ananda Rao has failed in four subjects.

4. We are of opinion that Kadirvelu is the only student who can be regarded as having passed a fair examination, and even his marks are not high. Srinivas Rao, however, has a steady average and has done well in Botany. We would therefore pass him for the Forest Department. As regards the remaining three, we do not consider them qualified to pass. Armugam has not only failed in a subject of the greatest importance to an Upper Subordinate of the Department of Public Works, but has very low marks in all the Engineering subjects: Raghunath Aiyangar has similarly failed in two essential subjects; while Ananda Rao has failed almost completely.

C. BOWEN, CAPTAIN, R. E., *Offg. Suptg. Engineer, R. & B. Branch.*
